Build a virtual support system with people who understand.

Alzheimer's Association® caregiver support groups, conducted by trained facilitators, are a safe place for caregivers, family and friends of persons with dementia to exchange practical information on caregiving challenges, possible solutions and learn about community resources, talk through issues and ways of coping and share feelings, needs, ideas and concerns. An online community is also available at alzconnected.org.

The local online meetings below are free, confidential and open to anyone caring for a person with Alzheimer's disease or related dementia. ***Registration is required to receive access info each month.***
