## Executive Director and Board President letter

A recurrent theme in our work is family: from those that we serve, to our staff, our tireless volunteers and board of directors, our donors, our government and agency partners, our corporate sponsors, local researchers and those we serve. At some level, all of these groups and the individuals involved are part of our Alzheimer's family.

Our accomplishments are in large part their accomplishments. We do nothing in a vacuum. Support groups are facilitated by dedicated volunteers. Our Memory Walks are successful due to the energy and commitment of the volunteer steering committee, team captains, day-of workers and walkers. Our annual Conference and African American Caregivers Forum operate effectively because of the oversight and contributions of the planning councils. Public policy works because advocates are willing to learn the issues and talk with legislators.

Those who are referred to us for care and support often come by way of other agencies, organizations and healthcare professionals. Our corporate sponsors and donors help us underwrite and make possible many of the programs and services we offer, helping us to move our mission forward. And local researchers partner with us in working toward achieving our vision of a world without Alzheimer's disease.

Bring all this incredible Chapter "family" work together, and we continue to bring value, care and support to those who are affected by Alzheimer's.

We thank you for your time, talent, and gifts,

Nancy Dapper  
Executive Director

A handwritten signature in black ink that reads "Nancy J. Dapper".

Nora Gibson  
President, Board of Directors

A handwritten signature in black ink that reads "Nora Gibson".

*Call it a clan, call it a network, call it a tribe, call it a family: Whatever you call it, whoever you are, you need one. – Jane Howard*

# An Introduction

Those of us who are part of the Alzheimer's family need one another. Chapter staff provides the support, care, information and resources that help individuals and families navigate the unexpected and difficult and find moments of joy in the process; our sponsors and volunteers help support the work we do and make it possible; researchers explore potential therapies and cures for these challenging and progressive dementias; healthcare professionals, home care workers, case and care managers, social workers, activities professionals, memory care, assisted living, adult family home and nursing home staff are part of the care teams we all cherish and depend upon and often become extended family on this journey. And most importantly, there are the families that we are privileged to work with and serve.

We are all part of the Alzheimer's clan, network, tribe, family. This year's annual report is really a celebration of our collective, honest work and accomplishments. Each step, each member, each contribution, each kindness actualizes our mission. Each day brings us closer to our vision of a world without Alzheimer's disease.

## Programs and Services

*Just as we are able to accomplish our mission because of the collective strength of our Alzheimer's family, the same can be said of the thoughtful family of programs and services we offer. Everything we do here at the Chapter has a specific, meaningful purpose and meets a growing need.*

*Below you will find an overview of how donor gifts are translated into our tangible, effective work over this past year.*

### Support Groups

We sponsor 97 support groups for caregivers, providing consistent, caring places for group members to discuss the challenges of caregiving, share their feelings and find emotional support as well as exchange information about Alzheimer's disease.

There were a total of 16,346 visits, an increase of 8.8% from last year. 90% of caregivers felt they increased their ability to care for loved ones with memory loss as a result of attending a group. We offer support groups in all 23 of the counties in our region in 47 cities, as well as a telephone support group.

### Helpline

One phone call connects you to a wide array of services and information such as support groups, safety services, and care consultation. By phoning our 24/7 Helpline, callers connect with a compassionate professional ready to help.

Our Helpline handled 3,896 calls, a 19.5% increase in calls from last year. 100% of callers surveyed reported overall satisfaction with Helpline Services.

### Connections and El Portal Northwest Care Consultation

Connections and El Portal Northwest (care consultation to the Hispanic community of King County) provide individualized guidance to families and individuals to address immediate needs and planning for the future, with ongoing support throughout the course of the disease.

This year Connections served 314 new clients, provided a total of 2,058 consultations and over 3,000 hours of consultation, all free-of-charge.

### Early Stage Memory Loss Program

An opportunity for those with mild memory loss problems to meet others who are in similar circumstances, the program also provides an opportunity for family, friends and care partners to learn with their loved one about memory loss and other areas of concern (care partners cannot attend alone).

A total of 172 participants (persons with dementia and his/her care partners) benefitted from these programs offered in Bellevue, Bothell, Centralia, Lacey, Olympia, Port Angeles, Poulsbo (2), Seattle (2), and Sequim.

### Annual Regional Conference

Our annual regional conference has been in existence and growing for 25 years. This year's conference keynote was Gary Small, MD, a well-respected author, and brain health, aging and Alzheimer's researcher from UCLA. Faculty covered topics from improving memory, managing challenging behavior, activities, programs, research updates, dining and meal planning, to communication. In all, there were 25 workshops and 1,075 attendees.

### Education and Training

Our hands-on, evidence-based, practical training empowers family caregivers and gives them the tools for successfully managing the day-to-day of caring for a loved one with dementia. Overall, our Trainers provided 224 presentations and classes, reaching 3,396 participants and attendees. Of those attendees, 99% "Learned something new".

### African American Caregivers Forum

This Forum addresses the unique concerns of the African American community as it relates to caregivers and families caring for a loved one with dementia. A total of 109 caregivers attended. All strongly agreed or agreed that they learned something they can use, and 98% would recommend the forum to a friend.

*"The useful, practical information will assist me in compassionately understanding and caring for my mother. What a gift to us this conference has been!" – Family Caregiver*

### Advocacy

In February a group of 30 advocates visited Olympia, WA and met with legislators to address the needs of those affected by Alzheimer's and related dementias. Our 2010 Public Policy Priorities included vigorously opposing all further reductions in the budget that would adversely affect individuals who have dementia and their caregiver as well as asking that adult day health services be restored to their 2008 levels.

### Research

Our vision is a world without Alzheimer's disease. We have relationships with local researchers who are moving us closer to our vision. We've partnered with the University of Washington Alzheimer's Disease Research Center with Research Forums. We held two over the past fiscal year, allowing attendees the opportunity to hear from researchers and research participants alike.

### Memory Walk

A time for family, friends and neighbors to come together each year in honor of those that have been affected by Alzheimer's and related dementias. Memory Walks are as much a celebration of love and hope, as they are an opportunity for us to publicly rally to raise awareness and funds for care, support and research. Four Walks were held throughout our region – Tacoma, Silverdale, Seattle and Mount Vernon. There was also a community walk in Port Townsend, organized by a devoted volunteer. In all, a total of \$524,037 was raised, 2,350 walkers participated.

# Profiles

## A Son's Story – Calvin West

"My name is Calvin West, and I am 63 years of age. I have been the full-time caregiver for my mother, Dorothy West, since March of 2005. Caring for her has been an ongoing and increasing process that eventually led to my decision to resign from the Kent School District and curtail my graduate studies.

I often reflect on how the counsel and advice I received from the Alzheimer's Association, along with the timely assistance of its support groups, forums, and conferences, have indeed helped to make my caregiving experience a special voyage of invaluable learning, hope, and inspiration.

The availability of such resources is truly priceless, and these resources continue to better enable me to provide care and understanding with the patience and compassion what our mother deserves. I have been blessed by the free programs and services that the Alzheimer's Association provides, and I believe the unfolding and spiritual journey my mother and I continue to experience exists in a living context of divine providence.

I am also encouraged by every effort toward making it a national priority to find a cure for this disease. With increasing awareness, education, and the advancement of treatment for this debilitating disease, we can witness more than a turning of the tide on this increasing health crisis."

## Support Group Facilitator, Educator – Barbara Bridges

For over sixteen years, Barbara has been a dedicated volunteer support group facilitator. In addition to facilitating a bi-monthly caregiver support group, and after recognizing that some caregivers find it a challenge to access traditional support groups, Barbara piloted the Chapter's first telephone support group that offers the benefits of a traditional face-to-face support group without the need to leave home.

Not only a support group facilitator, since 1998 Barbara has led the Chapter's facilitator training program, training more than five hundred volunteer facilitators. Barbara realizes the daunting task we face trying to keep pace with support for the ever growing number of families touched by dementia. Our challenge is to find enough volunteers to fill these roles.

Barbara has been an exceptionally dedicated and inspirational volunteer for the Alzheimer's Association. On behalf of the Alzheimer's Association we presented Barbara Bridges with the Morey Skaret Leadership Award in recognition of the many lives she has touched and continues to and those she's helped to support.

*"There is nothing as lonely as fixing three meals a day for someone who can no longer talk to you. My support group taught me to grieve for my losses, and then allow myself to dream new dreams."*

*– Lloyd, family caregiver*

### The Larkin Family

With a thriving medical practice and two sons in college, at age 56 Dr. Larkin closed his practice following his diagnosis in 2006 of younger-onset Alzheimer's disease. Happily married to his high school sweetheart, Beth, with what he considered to be the best years ahead of him, Hugh was one of the estimated half million people in the United States who have been struck with Alzheimer's in their 50s, 40s, even 30s (Hugh Larkin, MD, passed away in January 2011, surrounded by his family).

In the midst of these challenges, the Larkin family has given generously of their time and talent. In 2007, Hugh participated in a panel entitled "In Our Own Words: Early Stage/ Early Onset Panel" at our annual conference, where Hugh and others shared their experiences, challenges and needs, in their own words, as persons with dementia.

Beth and son Max have both been instrumental in the success of Alzheimer's Advocacy Day, meeting with legislators, telling their family's story.

Beth, along with Max and her other son Dillon, cared for Hugh at home as long as possible. When Hugh transitioned to a supportive living home, the family, including Hugh's siblings and their families, made visiting a priority, energizing their time together with music, part of the family's passion.

The family benefitted from our Connections care consultation program and utilized the services to help educate themselves and other family members on planning and preparing for what was ahead. Beth regularly attended a support group specific to those who have a loved one with younger-onset Alzheimer's.

Max and a close friend, Emily, started a non-profit called Mind Series and have been working on a documentary film, capturing the stories of other children of younger-onset dementia. Max has composed and performed music as part of the documentary's soundtrack. They also produced an emotional video for our "A Reason to Hope" Community Breakfast.

Hugh's big personality and love for life lives on in his family and in their ability to meet life's challenges creatively and with spirit, sharing their story with the world, giving other Alzheimer's families a voice. Here at the Chapter, we are proud to be a part of their family.

### Advocate – Collin Tong

When news of Washington State’s budget deficit began to surface, and talk of adult day health funding being cut or eliminated as the budget was being prepared, Collin was on top of outreach, education, and rallying his media, business, and personal friends in support of saving Adult Day Health. Collin’s persuasive energy helped preserve, in part, state funding for adult day health and well as heighten awareness around Alzheimer’s disease. But we believe his efforts will be much more long-lasting than a budget cycle.

Collin is also been an important voice in our Chapter’s Public Policy committee, helping to craft our legislative priorities, including legislation for a Washington State Alzheimer’s Disease Plan. Through his advocacy and awareness-building work, Collin Tong has promoted the Alzheimer’s Association as the go-to organization for resources, support and information on Alzheimer’s and related dementias.

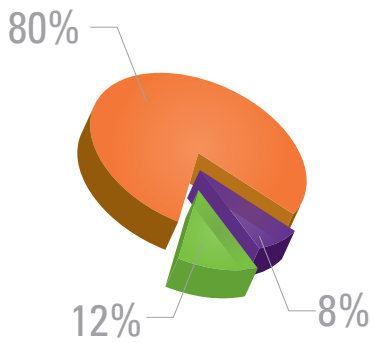

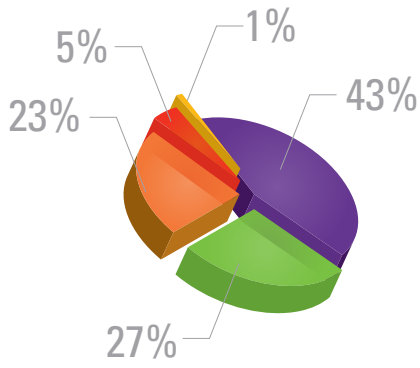

What motivates Collin? His wife, Linda.

Linda was diagnosed in 2005 with Young Onset Dementia. Since 2006, Linda had participated in and benefited from adult day health services. Collin knows the positive affect adult day health provides to both the participant and the caregiver. Collin has also benefitted from Helpline, and participating in a Support Group and the Connections program as part of his support system in caring for Linda. (before going to press, Linda had passed away, surrounded by family and friends).

Our Chapter recognized Collin as our 2009 Volunteer of the Year. Collin has been recognized for his advocacy work by the National Adult Day Health Association, which awarded him the Katryna Gould Award.
