ACTIVITY BASED ALZHEIMER'S CARE

ACTIVITY BASED ALZHEIMER'S CARE

This 7-hour class is designed for healthcare professionals in any care setting who work with people who have dementia. Activities are the foundation of care: every event, encounter or exchange is an activity. The scope of activities are limitless and includes every interaction with staff members, volunteers, relatives and other individuals: not only scheduled events provided by activity staff.

Objectives:

- Discuss the fundamental components of Activity Based Alzheimer's Care
- Effectively examine assessment and care planning
- Identify program design options and methods for implementation
- Adapt activities and the environment to better meet individual needs
- Examine a variety of ways to evaluate new and current programs
- Identify and implement the various aspects of teamwork
