<http://www.sendum.com/product/packtrack.htm>

System: GPS + cellular

Type: Car, portable

Network: Sprint[®] (Coverage map: <http://coverage.sprintpcs.com/IMPACT.jsp?covType=sprint>)

Manufacturer Description*

The Sendum PT200 is a mobile tracking device that combines GPS and AGPS (GPS + cellular) location technologies to provide highly accurate location information whether indoors or outdoors. The PT200 has not been tested for Specific Absorption Rate and is therefore not recommended as a wearable device. The PT200 can be used as a portable car device, resting on the passenger or back seat and transferred from car to car. Use it while on vacation in a rental car, or when getting a ride from a friend. General trackers without Specific Absorption Rate certification should be used at least 20 centimeters from the body. More information is available on the FCC website at <http://www.fcc.gov/cgb/sar/>.
