**Space is limited...so call now!*

The **Foundations of Dementia** program—developed by the Alzheimer's Association and tested in residential care settings—is based on the Alzheimer's Association *Dementia Care Practice Recommendations for Assisted Living Residences and Nursing Homes*. These recommendations, backed by hundreds of leading health and senior care organizations, were developed from the most advanced evidence in dementia care research and the experience of direct care experts.

The curriculum is approved for CEUs for nurses, social workers and administrators and includes the following modules: About Dementia, Learning to Lead, Reducing Pain, Enhancing Mealtime, Understanding Wandering, Promoting Restraint-Free Care, Making Connections, and Reducing the Risk of Falls. The Foundations program is offered by the Association throughout our tri-state service region and includes supplementary training through the Association's online training programs. We are available to do facility based trainings as well as regional trainings. The SJ regional office is proud to offer monthly trainings at our Marlton office. Look for the upcoming catalogue of courses! If you wish to schedule an on site training for your facility or act as a host site for a regional training, please call Krista McKay, Associate Director Education, at 856-797-1212, ext. 405.
