For information on the complete dementia care training

The Alzheimer's Association dementia care training program for residential communities will give your direct care staff the specialized knowledge and skills to be more productive and deliver a higher quality of dementia care.

Our training program features:

- Interactive, hands-on training
- Care approaches for all stages of dementia
- CEUs for nurses, social workers and nursing home administrators

**Space is limited...so call now!*

The **Foundations of Dementia** program—developed by the Alzheimer's Association and tested in residential care settings—is based on the Alzheimer's Association *Dementia Care Practice Recommendations for Assisted Living Residences and Nursing Homes*. These recommendations, backed by hundreds of leading health and senior care organizations, were developed from the most advanced evidence in dementia care research and the experience of direct care experts.

The curriculum is approved for CEUs for nurses, social workers and administrators and includes the following modules: About Dementia, Learning to Lead, Reducing Pain, Enhancing Mealtime, Understanding Wandering, Promoting Restraint-Free Care, Making Connections, Reducing the Risk of Falls and End-of-Life Care. The Foundations program is offered by the Association throughout our tri-state service region. Trained staff is also available to do facility based trainings as well as regional trainings. The SJ regional office is proud to offer monthly trainings at our Marlton office. If you wish to schedule an on site training for your facility or act as a host site for a regional training, please call Kristina Zumbo, Program Coordinator or Sorida Lopez-Rowland, Latino Outreach Specialist at 856-797-1212.
