A N A N N O T A T E D G U I D E , 2 0 0 3

PUBLICATION # 1

TITLE: 7 Minute Screen Training Video

PUBLISHER: Janssen Pharmaceutica
Research Foundation

YEAR: 1999

LENGTH IN MINUTES: 19

SUBJECT: Diagnosis, Training Para-
professional, Training Professional -
Medical

AUDIENCE: Administrators, Health Care
Professionals, Nurses, Physicians, Social
Workers

SUMMARY: The purpose of the 7 Minute
Screen is to distinguish normal memory loss
due to aging from Alzheimer's disease. It
measures orientation, memory, clock draw-
ing, and verbal fluency. Prepared by the
developers of the test, the video demon-
strates how to administer and score the test.
The test requires approximately an hour of
training to administer. The test takes 7 min-
utes to administer and score. The program is
intended for nurses, physician assistants,
medical technicians, and other office staff.

PUBLICATION # 2

TITLE: Abuse and the Dementia Patient

AUTHOR: Michele F. Bellantoni

PUBLISHER: Video Press

YEAR: 2001

LENGTH IN MINUTES: 22

SUBJECT: Elder Abuse, Nursing Care,
Patient Care, Patients' Rights, Safety

AUDIENCE: Caregivers - Family,
Caregivers - Professional, Case Care
Managers, Health Care Professionals,
Nurses, Nursing Assistants, Social
Workers, Trainers

SUMMARY: Nursing staff examine ways
to handle situations that may be potentially
abusive. Identified are forms of abuse that
can escalate, such as placing a resident in
a room by themselves or using restraints.
Such strategies as distraction, humor, team
work, one-on-one care, knowing when to
leave the room, and remaining calm, are
discussed in the program.

DISTRIBUTOR: Video Press

PUBLICATION # 3

TITLE: Abuse: The Resident's
Perspective

PUBLISHER: Video Press

YEAR: 2001

LENGTH IN MINUTES: 18

SUBJECT: Elder Abuse, Nursing Care,
Patients' Rights, Safety

AUDIENCE: Administrators, Caregivers -
Family, Caregivers - Professional, Case
Care Managers, Nurses, Nursing Assist-
ants, Social Workers, Trainers, Counselors

SUMMARY: The treatments that residents
list as abusive are often basic procedures
not being observed by nursing staff.
Negative attitudes, lack of respect, waiting
for care, staff not wearing nametags, and
others, are explored in this video program.

DISTRIBUTOR: Video Press

PUBLICATION # 4

TITLE: Abuse: Verbal Interactions

SERIES TITLE: Elder Abuse: The Real
Definition

AUTHOR: Georgia Stevens

PUBLISHER: Video Press

YEAR: 2000

LENGTH IN MINUTES: 20

SUBJECT: Elder Abuse, Nursing Care,
Patient Care, Patients' Rights

AUDIENCE: Administrators, Health Care
Professionals, Nurses, Nursing Assistants,
Trainers, Program Planners

SUMMARY: Drawing on years of experi-
ence, Dr. Georgia Stevens and a panel of
care providers review circumstances that
trigger verbal abuse, such as uncooperative,
slow moving, or confused residents. Positive
strategies for prevention, including humor,
distraction, and empathy are discussed. The
video emphasizes respect for the resident at
all times and freedom of choice as much as
possible.

DISTRIBUTOR: Video Press

PUBLICATION # 5

TITLE: Abusive Physical Interactions

SERIES TITLE: Elder Abuse: The Real
Definition

PUBLISHER: Video Press

YEAR: 2000

LENGTH IN MINUTES: 20

SUBJECT: Behavior, Nursing Care, Patient Care, Patients' Rights

AUDIENCE: Administrators, Health Care Professionals, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: Rough handling a resident can happen when staff do not know the resident well or how to deal with difficult behaviors. This video addresses the most common types of unacceptable physical interactions, which include using force and rough handling when a resident does not or cannot cooperate, or is himself aggressive. The program highlights how to deal with problem behaviors with empathy and how to prevent them altogether.

DISTRIBUTOR: Video Press

PUBLICATION # 6

TITLE: Activities: Maintaining Daily Routines

SERIES TITLE: Assisted Living Best Practices

AUTHOR: Kathy Laurenhue

PUBLISHER: PRIMEDIA Workplace Learning

YEAR: 1999

LENGTH IN MINUTES: 60

INCLUDES: trainer and participant handouts, booklets

SUBJECT: Activities, Disease Management, Activities of Daily Living

AUDIENCE: Activities Professionals, Caregivers - Family, Caregivers - Professional, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: The premise of this video is

that residents who need assistance still have remaining strengths and much to offer regardless of the reason for being in a residential care facility. The program explores the activities of daily living and household tasks that residents can still perform. It emphasizes the contributions they make through relationships they build, positive self-esteem, and participation in the life of the community.

PUBLICATION # 20

TITLE: Alzheimer Journey

PUBLISHER: Alzheimer Society of Canada

YEAR: 1998

LENGTH IN MINUTES: 18

INCLUDES: workbook

SUBJECT: Alzheimer's Disease, Stages, Disease Management, Activities of Daily Living

AUDIENCE: Caregivers - Family, Case Care Managers, Family, Self-help Groups, Volunteers

SUMMARY: In four modules, family caregivers can learn what to expect as Alzheimer's disease progresses. The program tells how to manage changes during each of the three stages of the disease and covers such issues as planning for the future, managing daily routines, personal care, and emotional matters. It offers resources and emphasizes during each stage of the disease the need for the caregiver to have respite. Brain function and how it affects various regions is also covered. Titles are: 1. The Road Ahead; 2. On the Road; 3. At the Crossroads; 4. Understanding Alzheimer Disease: The Link Between Brain and Behaviour

DISTRIBUTOR: Alzheimer Society of Canada

PUBLICATION # 21

TITLE: Alzheimer Mystery

AUTHOR: Laurence Serfaty

PUBLISHER: Films for the Humanities & Sciences

YEAR: 2000

LENGTH IN MINUTES: 48

SUBJECT: Alzheimer's Disease, Research

AUDIENCE: Donors, Family, Persons with Alzheimer's Disease, Public, Students, Volunteers

SUMMARY: Since Alzheimer's disease was discovered nearly a century ago, it has gained considerable notice through celebrity and research, which has made monumental strides to understanding the disease. Persons with Alzheimer's and family members discuss ways of coping with the disease. Medical experts address the disease's pathology, research, and compassionate care.

DISTRIBUTOR: Films for the Humanities & Sciences

PUBLICATION # 22

TITLE: Alzheimer's Caregiving: Level 1 & 2

SERIES TITLE: Comfort Care Video Training Series

PUBLISHER: Geriatric Resources, Inc.

YEAR: 2002

LENGTH IN MINUTES: 480

INCLUDES: handouts,

SUBJECT: Activities, Behavior, Care-giver Stress, Communication, Diagnosis, Eating, Ethics, Patient Care, Activities of Daily Living, Alzheimer's Association

AUDIENCE: Caregivers - Family, Caregivers - Professional, Health Care Professionals, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: For basic and advanced training, level 1 of this eight-hour CME program covers the characteristics of Alzheimer's disease, communications, family and ethical issues, and the environment. Level 2 explores difficult behaviors, activities of daily living, activities, stress management, and medical information about the disease. Additional topics such as the Global Deterioration Scale (GDS), the Brief Cognitive Rating Scale (BCRS), and behavioral triggers are explored.

PUBLICATION # 26

TITLE: Alzheimer's Disease

PUBLISHER: Aquarius Productions

YEAR: 1997

LENGTH IN MINUTES: 28

SUBJECT: Alzheimer's Disease,
Behavior, Patient Care, Disease
Management

AUDIENCE: Caregivers - Family, Family,
Health Care Professionals, Students

SUMMARY: Experts discuss how
Alzheimer's disease affects families and
society as a whole, and offer practical sug-
gestions for handling the depression and
delusions that can go along with the dis-

ease. Several families relate their own
experiences caring for a relative with
Alzheimer's. One family has help in the
home, another uses an adult day care cen-
ter. The program acknowledges that there
is no known cure for the disease but
explains that researchers have learned a lot
about how to manage it.

DISTRIBUTOR: Aquarius Productions

PUBLICATION # 27

PUBLICATION # 31

TITLE: Alzheimer's Disease Update: New Thinking on Risks, Causes, and Treatments

PUBLISHER: Alzheimer's Disease Education and Referral Center (ADEAR)

YEAR: 1999

LENGTH IN MINUTES: 222

INCLUDES: biographies, booklet, report

SUBJECT: Alzheimer's Disease, Etiology, Research, Treatment, Alzheimer's Association

AUDIENCE: Donors, Trainers, Program Planners, Media, Public Relations Staff

SUMMARY: A program composed of three videotapes on Alzheimer's disease presented at a science writers' seminar sponsored by the National Institute on Aging (NIA). The program is designed to

help provide a framework for those reporting on Alzheimer's disease. The videos address these topics: Alzheimer's disease update (Dr. Marcelle Morrison-Bogorad); clinical aspects of Alzheimer's disease (Dr. Marilyn Albert); genetic factors (Dr. Thomas Bird); prions and implications for neurodegenerative disease (Dr. Stanley Pruisiner); etiology and mechanisms (Dr. Dennis Selkoe); clinical trials (Dr. Leon Thal); behavioral and social aspects (Ms. Lisa Gwyther); and a look at the future from the Alzheimer's Association (Ms. Judith Assmus Riggs). Produced in cooperation with the Alzheimer's Association.

PUBLICATION # 32

TITLE: Alzheimer's Disease: A Multi-Cultural Perspective

AUTHOR: San Jose State University

PUBLISHER: Terra Nova Films

YEAR: 1993

LENGTH IN MINUTES: 34

SUBJECT: Alzheimer's Disease, Asian Americans, Hispanic Americans, Minorities, Psychological Aspects, Diversity

AUDIENCE: Family, Health Care Professionals, Minorities, Self-help Groups

SUMMARY: In some cultures, Alzheimer's disease is regarded as something shameful or embarrassing rather than a disease that requires attention. Among some Japanese, Chinese, Vietnamese, and Latino families, the symptoms of Alzheimer's are accepted too often as a consequence of aging. The lack of foreign language materials prevents families from talking about it or seeking assistance. Many do not have help from extended families and are afraid to place their relatives in long term care facilities because of language differences and cost. In this program, medical experts and families who have dealt with these issues share their experiences and discuss solutions.

DISTRIBUTOR: Terra Nova Films

PUBLICATION # 39

TITLE: Alzheimer's Disease: Inside Looking Out

AUTHOR: Alzheimer's Association, Cleveland Area Chapter

PUBLISHER: Alzheimer's Association, Cleveland Area Chapter

YEAR: 1995

LENGTH IN MINUTES: 18

SUBJECT: Alzheimer's Disease, Early Stage, Interviews, Personal Narratives, Stages, Support Groups, Alzheimer's Association

AUDIENCE: Caregivers - Family, Family, Persons with Alzheimer's Disease, Self-Help Groups, Volunteers

SUMMARY: Personal interviews with people in the early stages of Alzheimer's disease offer insights into how the illness alters their everyday life. They discuss how they cope with their increasing dependence on others, as when they have to give up driving, and share their concerns about becoming a burden. They also address other people's changing attitudes toward them, which they say can be dehumanizing, and explain how they want to be treated. The program stresses the importance of airing emotions and suggests that patient support groups can be a valuable resource for those in the early stages of the disease.

PUBLICATION # 41

TITLE: Alzheimer's Disease: Natural Feeding Techniques

AUTHOR: U.S. Dept. of Veterans Affairs

PUBLISHER: Terra Nova Films

YEAR: 1993

LENGTH IN MINUTES: 14

SUBJECT: Eating, Patient Care, Stages

AUDIENCE: Caregivers - Professional, Nurses, Nursing Assistants

SUMMARY: Three case studies show that some Alzheimer's residents can be fed orally even in the late stages of the disease. By using the right techniques, nursing home staff can avoid using a gastrostomy tube, improve nutrition, and reduce the risk of infection. The program suggests making breakfast and lunch the biggest meals of the day, serving a variety of food, using more staff to help out at mealtimes, and offering cues for chewing and swallowing.

PUBLICATION # 43

TITLE: Alzheimer's Disease: Pieces of the Puzzle

PUBLISHER: University of Arizona Care Gerontology Center and Biomedical Communications

YEAR: 1990

LENGTH IN MINUTES: 119

SUBJECT: Alzheimer's Disease, Behavior, Communication, Dementia, Diagnosis, Staff Education, Training Paraprofessional, Training Professional - Medical

AUDIENCE: Caregivers - Family, Caregivers - Professional, Health Care Professionals, Nurses, Volunteers, Program Planners

SUMMARY: This training program in five parts for both professional and family caregivers presents an overview of how memory and other brain functions work, how Alzheimer's disease (AD) and other forms of dementia are diagnosed, and how Alzheimer's affects the brain and thus influences behavior and functioning. Dramatizations show how experienced caregivers cope with communication problems, and experts demonstrate how to handle difficult behavior using scenes from real life. A section on recreation explains how to choose and implement appropriate activities. The program also addresses how to provide personal care to people with AD. Each part is seventeen to thirty-five minutes in long.

PUBLICATION # 45

TITLE: Alzheimer's Disease: Techniques to Enhance Communication

SERIES TITLE: Eye on Healthcare

AUTHOR: Gayle Atherton

PUBLISHER: PRIMEDIA Healthcare

YEAR: 2001

LENGTH IN MINUTES: 30

SUBJECT: CME, Communication, Staff Education, Training Professional - Medical

AUDIENCE: Caregivers - Professional, Health Care Professionals, Nurses, Trainers, Program Planners

SUMMARY: The topics of this CME program video are communication changes in persons with Alzheimer's disease and techniques for communicating more effectively with them. It covers the basics of communication, how the disease affects communication skills, positive communication strategies, and communication methods

that should be avoided. The program is also available in satellite broadcast and CD-ROM.

DISTRIBUTOR: PRIMEDIA Healthcare

PUBLICATION # 46

TITLE: Alzheimer's Disease: What Caregivers Need to Know

PUBLISHER: University of South Florida Suncoast Gerontology Center

YEAR: 2000

LENGTH IN MINUTES: 16

INCLUDES: pamphlet

SUBJECT: Behavior, Caregiving, Finances, Research, Programs/Services

AUDIENCE: Caregivers - Family, Case Care Managers, Family, Health Care Professionals, Physicians, Counselors

SUMMARY: As an introduction to Alzheimer's disease, the program guides caregivers through steps that should be taken after diagnosis, as well as techniques for managing difficult behaviors. It explains how to manage legal and financial issues, suggests the use of community resources, and offers strategies for successful caregiving.

DISTRIBUTOR: University of South Florida Suncoast Gerontology Center

PUBLICATION # 47

TITLE: Alzheimer's the Tangled Mind

SERIES TITLE: The Health Show

PUBLISHER: Films for the Humanities & Sciences

YEAR: 1998

LENGTH IN MINUTES: 26

SUBJECT: Drug Therapy, Research

AUDIENCE: Donors, Health Care

Professionals, Physicians, Students

SUMMARY: Researchers explain how medical advances are improving the diagnosis and treatment of people with Alzheimer's disease. New drugs are showing promise and some older ones are being used for new purposes. Those discussed include nerve growth factor and anti-inflammatory medications. A new type of CAT scan, still in the experimental stages, may help doctors find out which patients are at risk of Alzheimer's.

PUBLICATION # 49

TITLE: Alzheimer's: A Practical Guide to Community Resources

PUBLISHER: University of Alabama, Center for Public Television

YEAR: 1996

LENGTH IN MINUTES: 60

SUBJECT: Behavior, Caregiving, Communication, Diagnosis, Etiology, Stages, Support Groups

AUDIENCE: Caregivers - Family, Caregivers - Professional, Family, Public

SUMMARY: Using graphics to show the differences between a normal brain and one with Alzheimer's, a researcher, caregiver, nurse, and social worker give an overview of the disease, its risk factors, diagnosis, theories about its causes, stages of the disease, and how it's treated. They explain ways to communicate and keep difficult behaviors under control, and discuss how support groups can help caregivers. They also talk about when to put someone in a nursing home and how to make the move as easy as possible for all concerned. The program highlights resources available in Alabama.

DISTRIBUTOR: University of Alabama, Center for Public Television

PUBLICATION # 50

TITLE: Alzheimer's: A True Story

PUBLISHER: Films for the Humanities and Sciences

YEAR: 1999

LENGTH IN MINUTES: 75

SUBJECT: Alzheimer's Disease, Caregiver Stress, Caregiving, Early Onset, Films, Music Therapy, Personal Narratives, Symptoms

AUDIENCE: Caregivers - Family, Donors, Family, Public

SUMMARY: A documentary that follows the evolution of Alzheimer's disease in a professor and pianist, who was diagnosed at age fifty-one. While portraying the common medical issues, the film begins with the first symptoms and ends with his death in a nursing facility. His wife and primary

caregiver describes the physical and emotional strains of caregiving as her husband's personality and daily functioning change. Musical therapy seems to be a positive activity as long as he is able to play the piano. The film captures the ups and downs of family relationships realistically, while depicting a caregiver's dedication.

DISTRIBUTOR: Films for the Humanities and Sciences

PUBLICATION # 63

TITLE: Bathing

SERIES TITLE: Assisted Living Best Practices

AUTHOR: Kathy Laurenhue

PUBLISHER: PRIMEDIA Workplace Learning

YEAR: 1999

LENGTH IN MINUTES: 55

INCLUDES: trainer and participant handouts, booklets

SUBJECT: Bathing, Nursing Care, Activities of Daily Living

AUDIENCE: Caregivers - Family, Caregivers - Professional, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: One approach to caregiving is to consider "personal interaction" as an activity of daily living. This philosophy can help make the time with patients more enjoyable by focusing attention away from tasks toward being with the patient. Reasons why persons with Alzheimer's are known to resist activities of daily living, especially bathing, are explored in the program.

PUBLICATION # 94

TITLE: Children, Adolescents, and Loss

SERIES TITLE: Living With Grief

AUTHOR: Cokie Roberts, Charles Corr, Kenneth Doka, Margarita Suarez, Nancy Webb

PUBLISHER: Hospice Foundation of America

YEAR: 2000

LENGTH IN MINUTES: 150

SUBJECT: Bereavement, Grief, Hospice

AUDIENCE: Clergy, Family, Social Workers, Counselors

SUMMARY: Adults sometimes fail to consider all that an adolescent or child may be going through when they are experiencing loss. They often do not know how to cope. This video teleconference considers a range of losses and how the individual's developmental level influences how they respond. The program explores strategies

that encourage children and young adults to develop healthy coping skills. It is the Seventh Annual National Bereavement Teleconference sponsored by the Hospice Foundation of America.

DISTRIBUTOR: Hospice Foundation of America

PUBLICATION # 95

TITLE: Choice and Challenge: Caring for Aggressive Older Adults Across Levels of Care

PUBLISHER: Terra Nova Films and Abbe Inc.

YEAR: 1998

LENGTH IN MINUTES: 23

INCLUDES: workbook

SUBJECT: Aggression, Behavior, Staff Education, Training Paraprofessional, Training Professional - Medical

AUDIENCE: Caregivers - Professional, Health Care Professionals, Nurses, Nursing Assistants, Physicians

SUMMARY: Clips of incidents involving aggression among Alzheimer's residents in nursing homes are the basis for this guide to assessing and managing hostile behavior. It shows how providing support and calming residents can help reduce such problems.

PUBLICATION # 97

TITLE: Clinical Features of Myotonic Dystrophy and Huntington's Disease

SERIES TITLE: Differential Diagnosis in Psychiatry

PUBLISHER: Films for the Humanities & Sciences

YEAR: 1998

LENGTH IN MINUTES: 25

SUBJECT: Related Disorders, Stages, Psychiatry

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: This study of two inherited diseases, Myotonic Dystrophy and Huntington's disease, uses patients to show stages of the illnesses. A psychiatrist shows

how Myotonic Dystrophy, an autosomal dominant condition, affects the muscles' ability to function in a mother and two daughters who have the disease. Three patients in the early, middle, and later stages of Huntington's disease demonstrate the involuntary movement and slowing of voluntary movement caused by the disease.

TITLE: Communication: How to Communicate With Someone Who Has Alzheimer's Disease or Related Dementia

SERIES TITLE: Communication

PUBLISHER: Healing Arts Communications

YEAR: 2001

LENGTH IN MINUTES: 30

SUBJECT: Behavior, Communication

AUDIENCE: Caregivers - Family, Family

SUMMARY: This video reviews the role communication plays in the care of a person with Alzheimer's disease. The narrator stresses the importance of the person's feelings and avoiding arguments or upsetting situations. The video covers specific areas of communication including vocabulary, repetitive questions, and aggressive behaviors. Other forms of communication that may work better than verbal skills, such as gestures, body language, tone of voice, and touch, are included. The video also addresses how to answer difficult questions, and how to make the best of a visit when the person no longer recognizes the visitor. A list of resources concludes the video.

YEAR: 2002

LENGTH IN MINUTES: 20

SUBJECT: Caregiving, Nursing Care,

Patient Care, Training Paraprofessional, Training Professional - Medical

AUDIENCE: Caregivers - Family, Caregivers - Professional, Nursing Assistants, Trainers, Program Planners

SUMMARY: A training video useful for family members and as a refresher for Clinical Nursing Assistants (CNAs). The program includes information on three stages of Alzheimer's, person-centered approaches to caregiving, guidelines for activities of daily living, and preventative measures for hitting, biting, and wandering.

DISTRIBUTOR: Coastal Training Technologies Corporation

PUBLICATION # 126

TITLE: Dementia and Depression

AUTHOR: Laurence Robbins

PUBLISHER: American Association of Family Practice Board Review

YEAR: 1999

LENGTH IN MINUTES: 32

INCLUDES: syllabus, workshop guide, self-assessment package

SUBJECT: CME, Depression, Disease Management

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: A CME program, "Dementia and Depression," will help prepare those testing for American Board of Family Practice (ABFP) certification and recertification. The publisher's learning objectives are: identify common clinical problems seen in family practice, identify the role of the family physician, utilize current advances in the diagnosis and treatment, implement prevention strategies into his or her practice, and develop a study and review process in preparation for examination. Various topics are packaged together into one video and presented in lecture format, with timing and tabs to identify the precise location of the dementia and depression program.

DISTRIBUTOR: CMEInfo.com

PUBLICATION # 127

TITLE: Dementia in Primary Care

PUBLISHER: Alzheimer's Disease International

YEAR: 1999

LENGTH IN MINUTES: 50

SUBJECT: Behavior, Dementia, Diagnosis, Related Disorders, Care for the Caregiver, Treatment

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: This videotape is intended to help primary care physicians diagnose and treat different dementias. The first section explains how to screen for dementia using the Abbreviated Mental Test. Section two discusses the role an informant plays in the dementia screening. It describes how informants may be friends, relatives, neighbors, or a spouse; information provided by informants helps the physician assess the patient's functional and behavioral status. Section three covers the differential diagnosis of the three most common dementias: Alzheimer's disease, vascular dementia, and dementia with Lewy bodies. The fourth section covers the pharmacologic management of the three most common dementias and treatment of concurrent conditions, such as depression. The final section describes how primary care physicians can assist caregivers; topics include the physician-caregiver relationship, support groups, and other community resources.

PUBLICATION # 128

TITLE: Dementia in the Elderly: What Their Behavior Tells Us

PUBLISHER: PRIMEDIA Healthcare

YEAR: 2002

LENGTH IN MINUTES: 30

SUBJECT: Behavior, CME, Communication, Staff Education

AUDIENCE: Caregivers - Professional, Health Care Professionals, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: Difficulty with communication is one of the early signs of dementia. Caregivers need to look beyond words to determine what the person with dementia might be saying through their actions and nonverbal communication. The premise of this CME video program is that all behavior has meaning, therefore, to understand it is a form of communication. It focuses on analyzing patient behaviors and messages, identifying the causes of certain behaviors, and strategies for refocusing the patient.

DISTRIBUTOR: PRIMEDIA Healthcare

PUBLICATION # 129

and Related Dementias

SERIES TITLE: Geriatric Grand Rounds

AUTHOR: Rodney Short

PUBLISHER: Iowa Geriatric Education
Center, University of Iowa College of
Medicine

YEAR: 2002

LENGTH IN MINUTES: 60

INCLUDES: supplement

SUBJECT: Diagnosis, Staff Education,
Training Professional - Medical

AUDIENCE: Health Care Professionals,
Nurses, Physicians, Trainers, Program
Planners

SUMMARY: This grand round video approved for nurses and physicians, discusses the use of biomarkers for diagnosing Alzheimer's disease and the non-degenerative and degenerative causes of dementia.

DISTRIBUTOR: Iowa Geriatric Education
Center, University of Iowa College of
Medicine

PUBLICATION # 137

TITLE: Diagnosis: Alzheimer Disease:
Recognizing Alzheimer's Disease

SERIES TITLE: Diagnosis: Alzheimer
Disease

AUTHOR: Peter V. Rabins

PUBLISHER: Video Press

YEAR: 1999

LENGTH IN MINUTES: 20

SUBJECT: Diagnosis, Symptoms

AUDIENCE: Case Care Managers, Health
Care Professionals, Nurses, Nursing
Assistants, Physicians

SUMMARY: Family members and staff working in residential and daycare facilities can learn how to recognize fluctuations in behavior which may suggest a transition to Alzheimer's disease. Psychiatrist Dr. Peter V. Rabins alerts caregivers to changes that should be reported to medical staff.

DISTRIBUTOR: Video Press

PUBLICATION # 138

TITLE: Diagnosis: Alzheimer's Disease:
Diagnosis

SERIES TITLE: Diagnosis: Alzheimer's
Disease

AUTHOR: Peter V. Rabins

PUBLISHER: Video Press

YEAR: 1999

LENGTH IN MINUTES: 60

SUBJECT: Activities, Alzheimer's
Disease, Communication, Diagnosis,
Symptoms

AUDIENCE: Caregivers - Family, Family,
Health Care Professionals, Nurses, Nursing
Assistants, Volunteers

SUMMARY: Psychiatrist Peter V. Rabins narrates this three-videotape program and interviews caregivers and health care professionals about diagnosis and disease management. The first video, "Recognizing Alzheimer's Disease," identifies the changes in behavior and cognition that may predict the onset of Alzheimer's. The second video, "Diagnosis," is intended to help physicians

communicate the diagnosis of Alzheimer's to families and patients. "Bringing More Meaning to Life," the final video, discusses how activities can benefit people with Alzheimer's and provides suggestions for developing effective activity programs for people living at home and in long-term care facilities. Each video is twenty minutes.

PUBLICATION # 139

TITLE: Different Domains of Alzheimer's Disease

SERIES TITLE: Pathways of the Mind

AUTHOR: John Morris, William Reichman

PUBLISHER: Distance Learning Network; University of South Dakota School of Medicine

YEAR: 2001

LENGTH IN MINUTES: 60

INCLUDES: syllabus

SUBJECT: CME, Drug Therapy, Drugs

AUDIENCE: Health Care Professionals, Nurses, Physicians

SUMMARY: A moderated discussion addresses current and emerging drug therapies for cognitive and behavioral impairments in persons with Alzheimer's disease. This is a CME program that is available to physicians and nurses only.

DISTRIBUTOR: University of South Dakota Office of Continuing Medical Education, School of Medicine

PUBLICATION # 140

TITLE: Differentiating Between Depression and Dementia

SERIES TITLE: Medstar, Ralston Lecture Series

AUTHOR: William Orr

PUBLISHER: University of North Dakota, Division of Biomedical Communications

YEAR: 1999

LENGTH IN MINUTES: 60

INCLUDES: booklet

SUBJECT: Dementia, Depression, Psychiatry

AUDIENCE: Health Care Professionals, Nurses, Physicians

SUMMARY: The stated objectives of this program are to review the prevalence of early dementia and depression in the elderly, and show how the two conditions can overlap. Also covered are the role the mental state exam and work-up play in the differential diagnosis; the dementias that mimic depression; and drug and non-drug therapies used for treating dementia and depression. The program is not for CME units.

DISTRIBUTOR: University of North Dakota, Department of Continuing Medical Education

PUBLICATION # 141

TITLE: Discussing Advance Directives: A Practical Guide

AUTHOR: Michael Mulvihill

PUBLISHER: P. H. Jewish Home and Hospital for the Aged

YEAR: 1994

LENGTH IN MINUTES: 26

SUBJECT: Advance Directives, Decision Making, Living Wills

AUDIENCE: Community Service Professionals, Health Care Professionals, Physicians, Social Workers, Counselors

SUMMARY: Two case studies help teach medical professionals how to talk more easily with patients about health care proxies, living wills, and other issues of impor-

tance to people nearing the end of their lives. Two women who have lost their mother - one of whom had Alzheimer's disease - discuss their concerns about advance directives arising from their personal experiences. Doctors explain the best time to help patients begin thinking about advance directives. The program is aimed at helping professionals ease people's fears about the end of life and help them make clear their preferences for treatment in case they are unable to make those decisions for themselves.

PUBLICATION # 148

TITLE: Dress Him while He Walks: Management in Caring for Residents with Alzheimer's

AUTHOR: Alzheimer's Association, Miami Valley Chapter / Global Village Communications

PUBLISHER: Terra Nova Films

YEAR: 1993

LENGTH IN MINUTES: 20

SUBJECT: Bathing, Behavior, Communication, Confusion, Dressing, Eating, Wandering, Activities of Daily Living

AUDIENCE: Caregivers - Family, Caregivers - Professional, Health Care Professionals, Nurses, Nursing Assistants

SUMMARY: Workers in a long term care unit specializing in Alzheimer's disease offer suggestions for handling the wandering, delusions, and hallucinations that can accompany the disease as well as tips for communicating with residents. Using scenes from their facility to illustrate their points, they demonstrate ways to help with such everyday activities as eating, dressing, and bathing. They stress behavior management instead of behavior modification, discuss the use of medications, and explain how to tailor care to each individual.

PUBLICATION # 158

TITLE: Eliminating Negative and Abusive Interactions: Preventing and Reducing Negative and Abusive Responses

SERIES TITLE: Eliminating Negative and Abusive Interactions

PUBLISHER: Video Press

YEAR: 1997

LENGTH IN MINUTES: 26

SUBJECT: Aggression, Behavior, Caregiver Stress, Communication, Dementia, Patient Care, Care for the Caregiver, Disease Management

AUDIENCE: Caregivers - Family, Caregivers - Professional, Health Care Professionals

SUMMARY: Caring for difficult residents of nursing homes can be enormously stressful for staff members. This video program in two parts, which includes scenes from a long term care facility, shows how to ease the strain and prevent caregivers from reacting in negative ways. Caregivers open up about which demands are the most stressful - verbal abuse, physical abuse, residents' troublesome behavior, overwork, or demands from residents' families. Then they describe how they cope with those stresses - for example, by working as a team, becoming better acquainted with residents, keeping an eye out for early signs of difficult behavior, ignoring inappropriate language, and viewing residents' relatives as part of the care team.

TITLE: Geriatric Nursing Assistant: The Most Important Team Player: Becoming an Extended Family Member

SERIES TITLE: Geriatric Nursing Assistant

AUTHOR: Debra Wertheimer

PUBLISHER: Video Press

YEAR: 2000

LENGTH IN MINUTES: 20

SUBJECT: Nursing Care, Patient Care, Training Paraprofessional

AUDIENCE: Administrators, Nursing Assistants, Trainers, Program Planners

SUMMARY: Many nursing assistants feel that they know more about nursing home residents than other staff and value close relationships with them. In a group discussion, nursing assistants describe their relationship with residents noting that they sometimes spend more time with them

than with their own families. Getting to know residents through spending time with them, listening, talking, and responding to their likes and dislikes are noted as keys to providing good care. Finding out what they did before they entered the facility, communicating with the family, and sharing their information about the resident helps foster a caring and trusting relationships. This video is a companion video to "Geriatric Nursing Assistant: The Most Important Team Player: The Most Important Eyes" also listed in this guide.

YEAR: 1991

LENGTH IN MINUTES: 58

SUBJECT: Alzheimer's Disease, Behavior, Patient Care, Personal Narratives, Activities of Daily Living

AUDIENCE: Caregivers - Family, Caregivers - Professional, Health Care Professionals, Self-help Groups, Volunteers

SUMMARY: This Emmy award winning program tells the story of Grace Kirkland, who has a progressive dementia disorder. At the beginning of this seven-year journey, Grace begins having trouble with her short-term memory. Four years later she has stopped speaking and spends her waking hours pacing through the house. Two years after that, she needs help walking and eating. Nevertheless, Grace and her husband weather their troubles with an indomitable spirit. (See the subject index under "Alzheimer's Disease" for a complete list of the "Grace" videos.)

PUBLISHER: Aquarius Productions

YEAR: 1997

LENGTH IN MINUTES: 28

SUBJECT: Bereavement, Grief

AUDIENCE: Caregivers - Family, Family, Self-Help Groups, Social Workers, Counselors

SUMMARY: The loss of a parent can be devastating, even to adults. Adult children may regret that their parents won't be with them during important events such as marriages, career changes, or the grandchildren. Seven adults and three professionals talk about what adults go through when they anticipate their parents' death and then lose their parents. They explain how adult children deal with such a loss, how it affects their relationships with others and how it changes their sense of self. The panel discusses children's need to remain connected with their parents even after they are gone.

TITLE: He's Doing This to Spite Me: Emotional Conflicts in Dementia Care

AUTHOR: Sheri Harman, David Kleber

PUBLISHER: Northwest Media, Inc.

YEAR: 2000

LENGTH IN MINUTES: 22

INCLUDES: workbook

SUBJECT: Behavior, Caregiver Stress, Interviews, Personal Narratives

AUDIENCE: Caregivers - Family, Family, Trainers, Program Planners

SUMMARY: Caregivers can become upset with dementia patients. Sometimes they try to reason unduly and family situations lead to arguments. Interviews with caregivers provide insights into ways of changing caregiver behavior in these instances. In this video, caregivers share their experiences and feelings. Dementia expert, Daniel Kuhn, emphasizes that persons with dementia are not responsible, that it is healthy for caregivers to express difficult feelings with others, and important to accept what cannot be changed. He encourages caregivers to support the family member as much as possible by helping to foster their abilities.

PUBLISHER: Video Press

YEAR: 1998

LENGTH IN MINUTES: 18

SUBJECT: Behavior, Symptoms, Down Syndrome

AUDIENCE: Caregivers - Family, Family, Self-help Groups

SUMMARY: People with Down syndrome (DS) are at higher risk for Alzheimer's disease than is the general population. This program uses the story of a 53-year-old man named Roger to help caregivers understand the symptoms and progression of Alzheimer's when it occurs with DS and to suggest ways to help people with both Alzheimer's and DS remain as independent as possible. In the beginning, Roger's disease is still in the early stages, but as the disease progresses, he loses interest in food, has trouble communicating and sleeping, and becomes disoriented and frustrated. The program shows how to handle seizures and how changes in the work environment can ease some problems on the job.

TITLE: Iris

PUBLISHER: Miramax Home Entertainment

YEAR: 2001

LENGTH IN MINUTES: 91

SUBJECT: Alzheimer's Disease, Behavior, Films, Alzheimer's Association

AUDIENCE: Public

SUMMARY: This full-length feature film with actors Judi Dench and Kate Winslet, who play the older and younger Iris Murdoch, respectively, depicts the real-life story of the author's functional decline due to Alzheimer's disease and the effect it has on her husband and literary critic, John Bayley. Based on Bayley's memoir, "Elegy for Iris," the film flashes back to Murdoch's youthful days as a budding novelist and intellectual. The video includes a PSA with actor and national Alzheimer spokesperson David Hyde Pierce, who describes the disease symptoms and resources for getting help.

PUBLICATION # 225

TITLE: Journey to Dementia's Inner World of Feelings

PUBLISHER: Bob Price Alzheimer's Education, Australia

YEAR: 1998

LENGTH IN MINUTES: 30

SUBJECT: Alzheimer's Disease, Behavior

AUDIENCE: Family, Health Care Professionals

SUMMARY: Behavioral problems crop up in people with Alzheimer's disease as their ability to reason, communicate, and perceive the world around them dims. They may feel anxious or bored and frustrated, or they may become suspicious of people,

angry, or depressed. This program presents a straightforward look at how dementia can lead to such problem behaviors and how to prevent them.

PUBLICATION # 235

TITLE: Living in Alzheimer's Disease

AUTHOR: S. Adornato

PUBLISHER: Office of Learning Resources University of California San Diego

YEAR: 1999

LENGTH IN MINUTES: 135

INCLUDES: handbook

SUBJECT: Alzheimer's Disease, Diagnosis, Stages, Symptoms

AUDIENCE: Caregivers - Family, Caregivers - Professional, Family, Minorities, Nurses, Nursing Assistants, Social Workers, Volunteers

SUMMARY: The video program provides an overview of Alzheimer's disease. In the first part, basic information about the brain is provided - how the brain is affected by Alzheimer's, the signs that someone may have the disease, the process of diagnosing it, and the changes that occur through three stages. The second part offers advice for caregivers. It discusses the steps in planning for the disease, such as getting a durable power of attorney and living will, investigating long term care options, and asking for help. It also covers specific caregiving issues such as driving, incontinence, bathing, eating, dressing and grooming, and terminal care. The video comes with a companion handbook (in English and Spanish) that contains the script of the video plus additional information.

TITLE: Mrs. Dorothy Peterson: A Case Study

PUBLISHER: Lutheran General Healthsystem

YEAR: 1994

LENGTH IN MINUTES: 13

SUBJECT: Medical Records, Nursing Homes, Patient Care, Patients' Rights, Disease Management

AUDIENCE: Administrators, Case Care Managers, Health Care Professionals, Program Planners

SUMMARY: Dorothy Peterson spent thirty-eight days in the hospital over a period of two months. During that time she was admitted, transferred, and readmitted numerous times, as health care providers tried to determine the best treatment for her case. Although she encountered competent staff, she experienced duplication of efforts and disjointed services. Eight assessments were taken and six care plans were written for her. This video will encourage discussion for hospital and nursing facilities wanting to improve continuous care.

PUBLICATION # 271

TITLE: My Challenge with Alzheimer's

PUBLISHER: Terra Nova Films

YEAR: 1996

LENGTH IN MINUTES: 16

SUBJECT: Alzheimer's Disease, Early Onset, Interviews, Personal Narratives, Stages

AUDIENCE: Caregivers - Family, Family, Persons with Alzheimer's Disease, Self-help Groups, Volunteers

SUMMARY: In this first-person account, a schoolteacher who was diagnosed with Alzheimer's disease while in her mid-50s talks about the changes in her life since then. She discusses the critical role her doctor played in the initial stages and how people have treated her after discovering she had the disease. She offers suggestions for people who are diagnosed with the disease and for those who interact with them.

PUBLICATION # 272

TITLE: My Gift, Myself: A Step-by-Step Guide to Becoming a Hospice Volunteer

AUTHOR: JoAnn Chitwood Nowack

PUBLISHER: Pacific Video Productions

YEAR: 1997

LENGTH IN MINUTES: 316

INCLUDES: student manual

SUBJECT: Home Care (as provided by families), Hospice, Training paraprofes-

sional, Training Professional - Medical, Volunteerism

AUDIENCE: Administrators, Trainers, Volunteers, Program Planners

SUMMARY: “My Gift: Myself: A Step-by-Step Guide to Becoming a Hospice Volunteer” is narrated by the author. In an easy-to-follow format, the video, and interactive student manual, copyright 2002, covers the philosophy behind hospice and the steps for becoming a hospice volunteer. Program sections are: What’s It All About (19 min.); What Can I Do? Guidelines for Activities (50 min.); The Greatest Gift, Learning to Listen (40 min.); Physical Care of the Dying Person (72 min.); Things of the Spirit (36 min.); A Time for Grief, Understanding Bereavement (56 min.); Caring for You (43 min.).

PUBLICATION # 273

TITLE: Myrna—the Mal-Oriented

AUTHOR: Naomi Feil

PUBLISHER: Edward Feil Productions

YEAR: 1997

LENGTH IN MINUTES: 26

SUBJECT: Behavior, Psychiatric Nursing, Psychological Aspects, Alternative Medicine

AUDIENCE: Caregivers - Family, Caregivers - Professional, Social Workers

SUMMARY: “Validation therapy” helps an 86-year-old woman with dementia pinpoint the real source of her anger and frustration, in this program. Unable to express her feelings adequately, the woman intimidates and alienates those around her. A caregiver helps her delve into the past, asking questions about the best and worst times of her life - but never asking “why” problems came about - and discovers the woman is still suffering from the death of a baby many years ago. By empathizing and thus “validating” that loss, the caregiver helps her with the healing process.

TITLE: Neglect

SERIES TITLE: Elder Abuse: The Real Definition

PUBLISHER: Video Press

YEAR: 2000

LENGTH IN MINUTES: 20

SUBJECT: Elder Abuse, Nursing Care, Patient Care, Patients’ Rights

AUDIENCE: Caregivers - Family, Caregivers - Professional, Family, Health Care Professionals, Nurses, Nursing Assistants

SUMMARY: Neglect can be a subtle form of elder abuse. Four nurses explore every day nursing care situations, such as failure to respond to a call bell or offer assistance when needed. Allowing a resident to be soiled, not observing and reporting changes in a resident’s physical or mental status, and not reporting signs of pain are also covered.

TITLE: Neuroleptics and the Elderly: A Physician’s Practical Guide

PUBLISHER: University of Alabama, Center for Public Television

YEAR: 1996

LENGTH IN MINUTES: 46

SUBJECT: Behavior, CME, Drugs, Guidelines, Restraints, Staff Education, Standards, Psychiatry, Training Professional - Medical

AUDIENCE: Caregivers - Professional, Health Care Professionals, Physicians, Trainers

SUMMARY: After giving a brief overview of dementia and the behavioral, cognitive, and psychiatric symptoms that often accompany it, a doctor talks about the Omnibus Reconciliation Act of 1987 and how it has affected the use of physical and chemical restraints in long term care facilities. He explains how neuroleptics work, their side effects, and how to teach nursing home staff to be on the alert for indications of problems stemming from their use. He also discusses other ways to bring inappropriate behavior under control. Physicians viewing this program may want to apply for Continuing Medical Education credit.

YEAR: 1998

LENGTH IN MINUTES: 60

SUBJECT: CME, Drug Therapy, Related Disorders, Staff Education

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: An expert in Parkinson's disease discusses early diagnosis and explains treatment options. The program explains how deprenyl taken in the early stages of the disease can delay the need for levodopa, whose effectiveness and risk of side effects can increase over time. The program stresses the importance of creating treatment plans tailored to individual cases as well as the need for providing information about the course of the disease and the likelihood that treatments will be effective.

PUBLICATION # 318

TITLE: Recognizing and Responding to Emotion in Persons with Dementia

AUTHOR: Philadelphia Geriatric Center

PUBLISHER: Philadelphia Geriatric Center

YEAR: 1997

LENGTH IN MINUTES: 22

INCLUDES: syllabus

SUBJECT: Behavior, Psychological Aspects

AUDIENCE: Administrators, Caregivers - Professional, Health Care Professionals

SUMMARY: For caregivers of people with dementia, emotions can provide clues to what the person is thinking. Researchers who have studied emotions in dementia show caregivers how to recognize five kinds of emotions and how to detect early signs of powerful feelings such as anger, then take measures to ward off negative reactions - and perhaps injury. In order to use this technique, caregivers must first know those in their care well enough to recognize their normal expressions. A manual included with the tape suggests points of discussion and role-playing.

TITLE: Sandwich Generation: Caring for Both Children and Parents

PUBLISHER: Films for the Humanities & Sciences

YEAR: 1995

LENGTH IN MINUTES: 28

SUBJECT: Caregiver Stress, Family, Women's Health

AUDIENCE: Caregivers - Family, Community Service Professionals, Family, Public

SUMMARY: This adaptation from a seg-

ment of TV's "Phil Donahue Show" portrays a dilemma many people face in their middle years, caring for both children and parents. Women, it says, often look after their children for 18 years and their parents for 18 years. Two adult children with families of their own talk about how they care for their parents in their own homes, discussing practical issues - managing time, finances, and living arrangements - as well as family dynamics. Journalist Hugh Downs addresses fears and misunderstandings people have about aging.

PUBLICATION # 345

TITLE: Solving Bathing Problems in

Persons with Alzheimer's Disease and Related Disorders

PUBLISHER: Alzheimer's Association, National Office

YEAR: 1996

LENGTH IN MINUTES: 22

INCLUDES: booklet

SUBJECT: Bathing, Behavior, Guidelines, Activities of Daily Living, Alzheimer's Association

AUDIENCE: Caregivers - Professional, Nurses, Nursing Assistants

SUMMARY: Bath time can present unique problems for nursing home staff who care for residents with Alzheimer's disease. This program describes the difference between agitation and aggression, then offers guidelines to help determine for each individual how far the disease has progressed and what physical problems may be an added hindrance. It helps caregivers determine what might be causing inappropriate behavior and develop a flexible plan for bathing. Once those issues are determined, it suggests including that information on the resident's personal record.

AUTHOR: Alzheimer's Association, Eastern Massachusetts Chapter and Fanlight Productions

PUBLISHER: Lifecycle Productions / Fanlight Productions

YEAR: 1993

LENGTH IN MINUTES: 18

INCLUDES: booklet

SUBJECT: Alzheimer's Disease, Family, Literature - Juvenile, Support Groups,

Literature, Alzheimer's Association

AUDIENCE: Caregivers - Family, Children / Adolescents, Family, Self-Help Groups

SUMMARY: Actress and national Alzheimer's spokesperson Shelley Fabares hosts this program designed to explain Alzheimer's disease to youngsters. It includes interviews with children ages seven to fifteen who have family members with the disease and shows scenes of them caring for their relatives. They talk about the importance of communicating their feelings, knowing they are not alone, and learning about the illness. They discuss their experience in support groups, where they can share their feelings with their young peers. The package includes a manual for parents and professionals, which can be used individually or in support groups, that explains the illness, tells how to address children's questions, encourages them to share their feelings, and suggests activities that enhance learning about the illness and about caregiving.

PUBLISHER: Terra Nova Films

YEAR: 1995

LENGTH IN MINUTES: 30

SUBJECT: Behavior, Caregiver Stress, Sexuality

AUDIENCE: Caregivers - Family, Caregivers - Professional, Community Service Professionals, Family, Health Care Professionals, Persons with Alzheimer's Disease

SUMMARY: Three married couples engage in frank discussions about how Alzheimer's disease has affected their marital relationships. The disease can produce either hypersexuality or, more often, a loss of interest in sex. Some couples find that as one partner increasingly takes on the role of caregiver and the other grows more helpless, it is the caregiver who loses interest. When one partner no longer recognizes the other, sex can lose its meaning and satisfaction. For other couples, however, the problems associated with the disease draw them closer emotionally.

PUBLICATION # 363

TITLE: Training Manual and Video for Dementia Care Specialists

AUTHOR: J. M. Stehman

PUBLISHER: George G. Glenner Alzheimer's Family Centers

YEAR: 1996

LENGTH IN MINUTES: 72

INCLUDES: training manual

SUBJECT: Adult Day Care, Alzheimer's Disease, CME, Long Term Care, Staff Education, Training Professional - Medical

AUDIENCE: Caregivers - Professional, Community Service Professionals, Health Care Professionals, Trainers

SUMMARY: The video explains how to start a dementia care program in any kind of environment, from the home to day care centers to assisted living, and nursing homes. It covers Alzheimer's disease and other forms of dementia, how to assess individual cases, and how to adjust the person's physical surroundings to make them safer. It suggests ways to interact with people who have the disease and outlines activities that make use of the person's remaining skills. It also discusses how the disease affects family relationships and emphasizes the importance of respite and outside support for relatives.

PUBLICATION # 364

TITLE: Transportation Solutions for Caregivers: A Starting Point

PUBLISHER: Easter Seals Project Action

YEAR: 2003

LENGTH IN MINUTES: 14

INCLUDES: booklet, facilitator's manual, overheads, CD-ROM

SUBJECT: Transfers, Alzheimer's Association

AUDIENCE: Activities Professionals, Nursing Assistants, Police Officials, Volunteers, Congregations/Community Organizations, Program Planners

SUMMARY: Transporting an older adult can be a challenge but need not be a struggle. "Transportation Solutions for Caregivers: A Starting Point" replaces the trial and error approach with multiple techniques that almost always provide some kind of solution. The video program covers safe and creative ways for transporting that have been tested by family caregivers and professionals alike. Produced in cooperation with the Alzheimer's Association.

PUBLICATION # 365

TITLE: TriAD: Three for the Management of Alzheimer's Disease: The Clinician, Patient, and Caregiver Alliance

PUBLISHER: Eisai/Pfizer

YEAR: 1997

LENGTH IN MINUTES: 25

INCLUDES: newsletters, brochures

SUBJECT: Alzheimer's Disease, Caregiving, Stages, Psychiatry, Disease Management

AUDIENCE: Caregivers - Family, Caregivers - Professional, Family, Health Care Professionals, Nurses, Nursing Assistants

SUMMARY: Integrating the roles of family members and professional caregivers into helping persons with Alzheimer's is this program's focus. The package covers the basics of the disease, including changes in the brain and stages of the illness. It provides information about diagnosis and assessment, instructions for filling out the Physical Self-Maintenance Scale (PSMS), and an explanation of the Current Procedural Terminology (CPT) reimbursement codes.

PUBLICATION # 366

TITLE: Trigger: Incontinence and Other Physical Problems

SERIES TITLE: Abuse Triggers

AUTHOR: Peter V. Rabins

PUBLISHER: Video Press

YEAR: 2002

LENGTH IN MINUTES: 17

SUBJECT: Elder Abuse, Interviews, Nursing Care, Patient Care, Staff Education, Training Paraprofessional

AUDIENCE: Administrators, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: Psychiatrist Dr. Peter V. Rabins and nursing assistants discuss incontinence and other physical problems as possible abuse triggers. The group identifies tone of voice, attitude, and words as triggers that can be abusive to residents. They recommend adopting positive strategies and empathy as a philosophy for relating to the elderly.

PUBLICATION # 367

TITLE: Trigger: Non-responsive/Needy Patient

SERIES TITLE: Abuse Triggers

AUTHOR: Peter V. Rabins

PUBLISHER: Video Press

YEAR: 2002

LENGTH IN MINUTES: 16

SUBJECT: Elder Abuse, Interviews,

Nursing Care, Patient Care, Staff Education, Training Paraprofessional

AUDIENCE: Administrators, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: Working with non-responsive and needy patients can be frustrating and yet rewarding. These residents are at risk for abuse since they typically cannot report it nor defend themselves. They are also prime candidates for neglect. Psychiatrist Peter V. Rabins and nursing assistants, discuss the reasons why non-responsive residents are especially difficult for new nursing assistants. The panel reminds the viewers of the rewards of caring for someone. They also recommend that new nursing assistants shadow more experienced staff, to learn the cues and techniques for working with these residents.

PUBLICATION # 369

TITLE: Trigger: Repetitive Behavior

SERIES TITLE: Abuse Triggers

AUTHOR: Peter V. Rabins

PUBLISHER: Video Press

YEAR: 2002

LENGTH IN MINUTES: 17

SUBJECT: Elder Abuse, Interviews, Nursing Care, Patient Care, Patients' Rights, Staff Education, Training Paraprofessional

AUDIENCE: Administrators, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: Residents who call out pose a special challenge for nursing home staff, often requiring that they look for the hidden meaning in the repetition, rather than dismissing it as unfounded. Psychiatrist Dr. Peter Rabins and nursing assistants, examine clinical vignettes of repetitive behaviors associated with dementia. In the discussion that follows, staff explore the possible causes, among them hunger, thirst, and pain. Regarding repetitive behavior as a symptom rather than a source of frustration helps them cope. The program also recommends ways that may help reduce repetitive behavior in some residents.

TITLE: Trigger: Resistive Behavior

SERIES TITLE: Abuse Triggers

AUTHOR: Peter V. Rabins

PUBLISHER: Video Press

YEAR: 2002

LENGTH IN MINUTES: 17

SUBJECT: Elder Abuse, Interviews, Nursing Care, Patient Care, Patients' Rights, Staff Education, Training Paraprofessional

AUDIENCE: Administrators, Nurses, Nursing Assistants, Trainers, Program Planners

SUMMARY: Resistive behavior can occur when residents cannot do things for themselves. Psychiatrist Dr. Peter V. Rabins and nursing assistants watch vignettes depicting scenes of resistive behavior in nursing home residents. They discuss positive ways of dealing with resistive behavior. Among them are: knowing the resident, being aware of their preferences, and accommodating them whenever possible; being calm and gentle instead of using an authoritarian voice; avoiding anger, force, or sarcasm; using phrases that residents are more likely to respond to; and redirecting.

PUBLICATION # 376

TITLE: Understanding Dementia, Part 3

SERIES TITLE: Long Term Care

PUBLISHER: PRIMEDIA Healthcare

YEAR: 1999

LENGTH IN MINUTES: 30

SUBJECT: Behavior, CME, Communication, Nursing Care, Patient Care, Staff Education, Training Paraprofessional

AUDIENCE: Caregivers - Professional, Health Care Professionals, Nurses, Nursing Assistants, Trainers

SUMMARY: A program that picks up where parts 1 and 2 in the series "Understanding Dementia," by PRIMEDIA Healthcare leave off. It explores, more fully, methods of resident care based on the disease symptoms, and suggests ways that the viewer can put that knowledge to work. Communication skills, interventions for managing behavior, and increasing the comfort level of residents with dementia are emphasized.

DISTRIBUTOR: PRIMEDIA Healthcare

PUBLICATION # 377

TITLE: Understanding Flashpoints:
Regaining Control

SERIES TITLE: Nursing Home
Confessions

PUBLISHER: Video Press

YEAR: 2002

LENGTH IN MINUTES: 20

SUBJECT: Elder Abuse, Interviews,
Nursing Care, Patient Care, Patients'
Rights, Staff Education

AUDIENCE: Caregivers - Professional,
Case Care Managers, Health Care
Professionals, Nurses, Nursing Assistants,
Students, Trainers, Program Planners

SUMMARY: Nursing assistants share their
techniques for regaining control after expe-
riencing a flashpoint. These are: knowing
their limitations, having a positive mindset,
talking about their problems with the
nurse, writing in a journal, prayer, and
focusing on their commitment to the resi-
dents. The danger of overworked staff and
prevention are also covered.

PUBLICATION # 387

TITLE: Voices of Caregiving: Insights from along the Way

PUBLISHER: Terra Nova Films

YEAR: 1997

LENGTH IN MINUTES: 32

SUBJECT: Alzheimer’s Disease, Caregiver Stress, Minorities, Patient Care, Care for the Caregiver, Diversity

AUDIENCE: Caregivers - Family, Family, Self-help Groups, Volunteers

SUMMARY: Adult children from a variety of ethnic backgrounds talk about caring for relatives with dementia and show that each family’s situation is unique. They talk about concerns over money, losing some control over their lives, and wanting to be thought of as something other than a caregiver. They discuss coping mechanisms: getting outside, keeping a personal journal, accepting the fact that their relationship with the loved one has changed, and continuing to look after that person even when he or she is in a nursing home. They also share what they’ve learned from the experience of caregiving, how they have involved children in the process, and how they have tried to keep a positive outlook while accepting their anger toward the disease.

DISTRIBUTOR: Terra Nova Films

PUBLICATION # 403

TITLE: With Change in Mind. Creative Care, July 16, 2000, Vol. 1

AUTHOR: World Alzheimer Congress (2000 : July 9-18 : Washington, D.C.)

PUBLISHER: Alzheimer's Association, National Office; Alzheimer's Disease International; Alzheimer Society of Canada

YEAR: 2000

LENGTH IN MINUTES: 60

SUBJECT: Research, Marketing/Media Relations, Alzheimer's Association

AUDIENCE: Donors, Public, Media

SUMMARY: Videotaped proceedings of World Alzheimer Congress 2000 conference jointly sponsored by the Alzheimer's Association, Alzheimer's Disease International, and Alzheimer's Society Canada. Contents: Positive Vibration Youth Steel Orchestra Performance; How the World Alzheimer Congress Came About (Orien Reid, William Kid, Stuart Roth); Public Service Announcement (Yasmin Aga Khan); Impact of Dementia Throughout the World with Emphasis on Developing Countries; Results of 10/66 Research Program (Dr. Martin Prince, Sr. Lecturer, London Institute of Psychiatry).

DISTRIBUTOR: Not distributed publicly

PUBLICATION # 404

TITLE: With Change in Mind. Creative Care, July 16, 2000, Vol. 2

AUTHOR: World Alzheimer Congress (2000 : July 9-18 : Washington, D.C.)

PUBLISHER: Alzheimer's Association, National Office; Alzheimer's Disease International; Alzheimer Society of Canada

YEAR: 2000

LENGTH IN MINUTES: 60

SUBJECT: Care for the Caregiver, Marketing/Media Relations, Alzheimer's Association, Conferences & Special Events

AUDIENCE: Donors, Health Care Professionals, Public, Media

SUMMARY: Videotaped proceedings of World Alzheimer Congress 2000 conference jointly sponsored by the Alzheimer's Association, Alzheimer's Disease International, and Alzheimer's Society Canada. Contents: Creative Care: Introduction to Creative Care (David Hyde Pierce); Public Service Announcement (Patti LaBelle); Research Triangle; We Are at War with Alzheimer's Disease (Maureen Reagan).

DISTRIBUTOR: Not distributed publicly

PUBLICATION # 405

TITLE: With Change in Mind. Creative Care, July 17, 2000

AUTHOR: World Alzheimer Congress (2000 : July 9-18 : Washington, D.C.)

PUBLISHER: Alzheimer's Association, National Office; Alzheimer's Disease International; Alzheimer Society of Canada

YEAR: 2000

LENGTH IN MINUTES: 60

SUBJECT: Diagnosis, Etiology, Treatment, Alzheimer's Association

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: Videotaped proceedings of World Alzheimer Congress 2000 conference jointly sponsored by the Alzheimer's Association, Alzheimer's Disease International, and Alzheimer's Society Canada. Contents: Creative Care: Introductions (Linda Wright, Chair of the Creative Care Planning Committee); Diagnosis of Alzheimer's Disease ; Natural History and Milestones; Etiological Hypothesis; Treatments (Dr. Serges Gauthier, Neurologist, McGill Center for Studies in Aging, Montreal, Canada); Epidemiology Studies in Five European Countries (Catalina Tudose, Romanian Alzheimer Society).

PUBLICATION # 406

TITLE: With Change in Mind. Pivotal Research, Plenary Session I, July 9, 2000, Vol. 1

AUTHOR: World Alzheimer Congress (2000 : July 9-18 : Washington, D.C.)

PUBLISHER: Alzheimer's Association, National Office; Alzheimer's Disease International; Alzheimer Society of Canada

YEAR: 2000

LENGTH IN MINUTES: 90

SUBJECT: Research, Alzheimer's Association, Conferences & Special Events, Diversity

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: Videotaped proceedings of World Alzheimer Congress 2000 conference jointly sponsored by the Alzheimer's Association, Alzheimer's Disease International, and Alzheimer's Society Canada. Contents: History of the Alzheimer's Congress (Dr. Khalid Iqbal); Purposes of the Conference: International Focus, Basic Understanding of Disease Mechanisms, Include Young Scientists from Economically Deprived Countries (Dr. Bengt Winblad).

PUBLICATION # 407

TITLE: With Change in Mind. Pivotal Research, Plenary Session I, July 9, 2000, Vol. 2

AUTHOR: World Alzheimer Congress (2000 : July 9-18 : Washington, D.C.)

PUBLISHER: Alzheimer's Association, National Office; Alzheimer's Disease International; Alzheimer Society of Canada

YEAR: 2000

LENGTH IN MINUTES: 90

SUBJECT: Aging, Alzheimer's Disease, Dementia, Related Disorders, Research, Public Policy, Alzheimer's Association, Conferences & Special Events

AUDIENCE: Health Care Professionals, Physicians

SUMMARY: Videotaped proceedings of World Alzheimer Congress 2000 conference jointly sponsored by the Alzheimer's Association, Alzheimer's Disease International, and Alzheimer's Society Canada. Contents: Role of Change Agents in Alzheimer's Disease Treatment and Caregiving (Edward Truschke, Alzheimer's Association); Public Health Statistics on Dementia and Alzheimer's Disease (Dr. Robert Katzman, Univ. of Calif. at San Diego); Clinical Research in Alzheimer's Disease and Where It Is Going; Mild Cognitive Impairment: Aging into Alzheimer's Disease (Dr. Ronald C. Petersen, Ph.D., Mayo Clinic's Alzheimer's Disease Research Center, Rochester, Minn.); The Roots of Infection in Prions: Prions and Prion Immunology (Dr. Adriano Aguzzi, Institute of Neuropathology, Zurich, Switzerland); The Importance of Lobbying in Securing NIH Funding for Alzheimer's Disease Research and Announcement of the Rockefeller Institute, W. Va., An Organization Dedicated Solely to Research in Human Memory (U.S. Senator Jay Rockefeller, W. Va.).

PUBLICATION # 416

TITLE: Yankee Doodle Dandy Time

SERIES TITLE: Video Respite

PUBLISHER: Innovative Caregiving Resources

YEAR: 1993

LENGTH IN MINUTES: 30

SUBJECT: Activities, Music Therapy, Respite

AUDIENCE: Activities Professionals, Persons with Alzheimer's Disease

SUMMARY: The Fourth of July is the theme of this video designed to entertain people with dementia and provide a respite for caregivers. The program features a summer garden, party decorations, and an American flag. The host, whose cat is part of the show, recalls parades with marching bands and songs such as "It's a Grand Old Flag" and "Yankee Doodle."

PUBLICATION # 417

TITLE: You're Not Alone: Coping with the Death of a Spouse

PUBLISHER: Aquarius Productions

YEAR: 1996

LENGTH IN MINUTES: 38

SUBJECT: Bereavement, Grief, Personal Narratives

AUDIENCE: Caregivers - Family, Family, Self-help Groups

SUMMARY: Five people talk about the recent deaths of their spouses, what they are going through, and how they are coping. Two experts give a professional perspective on early reactions to the loss of a spouse. The program covers expected emotions including shock, anger, numbness, and fear of what the future holds, and issues such as when to stop wearing a wedding ring.
