

## ***Volunteer Opportunities***

### ***Special Events (Memory Walk, Sante' South Wine Festival, etc.)***

Assist a member of the special events team with planning, implementing and coordinating one or several of our fundraising special events. Events are held throughout the year and provide the much needed financial support to further the mission of the Alzheimer's Association.

### ***Helpline***

The telephone Helpline provides information on all aspects of Alzheimer's disease; referrals to services, professionals and support groups; guidance on patient management and care; and empathic support to families in distress. Volunteers will counsel callers and send out materials that specifically address the needs of the caller, and introduce them to our chapter programs and services. This service is offered free of charge to anyone who calls and training is provided.

### ***Office Support***

Bring yourself or a friend and assist our office manager, database manger and receptionist with various duties within the office such as mailings, copying, filing and packet making.

### ***Health Fairs***

Promote community awareness and education by representing the Alzheimer's Association at health fairs and exhibit tables at conferences. Distribute information and answer basic questions about chapter services.

### ***Other***

There are many other volunteer opportunities with the Alzheimer's Association. If you have a specific skill like computers, graphic design or are bi-lingual, we will work to accommodate your skill set with a specific volunteer position within the organization.
