PREPARE FOR THE EXPECTED

It’s common for a person with dementia to wander and become lost; many do so repeatedly. In fact, six out of 10 people with dementia will wander at some point during the course of the disease. Wandering can be dangerous — even life threatening — and the stress can weigh heavily on caregivers and family.

The Alzheimer’s Association® and MedicAlert Foundation International have formed an alliance to help ensure the safety of individuals with Alzheimer’s or other dementias. MedicAlert® + Alzheimer’s Association Safe Return® is a 24-hour nationwide emergency response service for individuals with dementia who wander or have a medical emergency. We provide 24-hour assistance, no matter when or where the person is reported missing.
