alzheimer's disease: finding a balance

May 17, 2011 | 8:30 am – 4 pm | With registration and health fair opening at 8 am

Presenters:

John O'Brien, BA

John O'Brien brings more than 20 years of professional experience in the health care industry to his role as CEO and owner of Central Coast Senior Services, Inc. A graduate of the University of California with a degree in Psychology and Psychobiology, Mr. O'Brien has a wealth of experience in home care and dealing with elderly clients. He has played a vital role in the health care industry on the Monterey Peninsula and has provided leadership for numerous social service organizations.

Teepa Snow, MS, OTR/L, FAOTA

Teepa is an occupational therapist with 30 years of clinical experience in geriatrics and dementia. She has an independent practice and clinical appointments with Duke University School of Nursing and UNC-CH's School of Medicine. She has worked in a wide variety of clinical settings, including acute care, neuro and head injury rehab, home health, long term care, day programs, and VA medical centers. Over her career, she has taught, conducted clinical research, worked with individuals, families and professionals to help improve the lives and care for people with dementia.

program

8 am: Registration, Continental Breakfast, Explore Exhibit Tables

8:30 am: Welcome and Introductions

Marie Woerz, Conference Chair

Alzheimer's Association, Northern California and Northern Nevada

8:45 am: Promoting Wellness and Well Being After the Diagnosis

Teepa Snow

This session is designed to help both the person with early stages of dementia and their care partner to use the abilities they still have. The focus will be on connecting previous interests and preferences to present circumstances and realities to give the person with dementia opportunities to contribute, feel competent and stay connected.

10:15 am: Break, Explore Exhibit Tables

10:30 am: Developing Activities That Have Meaning and Work

Teepa Snow

This workshop will help activity providers and direct caregivers develop and offer activity programs that are appropriate and effective when residents have some degree of cognitive impairment.

Noon: Lunch /Explore Exhibit Tables

1 pm: Hospital Stays & Dementia — What Can go Wrong and How Can We Change the Odds?

Teepa Snow

This session will provide information on symptoms and behaviors that present challenges when people have some form of dementia. Individuals will become familiar with supportive techniques and strategies that can be used to help when someone has dementia.

2 pm: Break, Explore Exhibit Tables

2:15 pm: Driving and Other Difficult Conversations With Older Adults

John O'Brien

Giving up driving privileges is an example of a common difficult conversation to have with the older adult client, patient or family member. Participants will be introduced to tools to turn such difficult conversations into opportunities to determine when to intervene, how to intervene and explore some of the motivations as to why the older adult resists accepting help.

3:35 pm: Closing Remarks, Evaluations, Explore Exhibit Tables

This annual education conference is designed to fit the needs of both professionals working in the field of Alzheimer's care and families living the day-to-day journey of caring for their loved one with Alzheimer's disease or a related disorder.
