

## ABOUT THE SPEAKER

Featured speaker, Teepa Snow, MS, OTR/L, FAOTA, has over 28 years of experience in geriatrics and is a strong voice and advocate for people living with dementia. The focus of Ms. Snow's career has been to help care providers, family members and professionals to better understand the experience of the person living with dementia. She has worn many hats during her career, including occupational therapist, professional caregiver, lecturer and researcher.

When a person is developing dementia, the ability to behave, react and interact is changing. This seminar will teach caregivers to adapt to the changing person with dementia and the changing roles as caregiver. The seminar will provide concrete reasons why changes occur and why corrective or negative responses are not helpful in trying to help the person with dementia manage life. The value and importance of forming and maintaining positive NEW relationships will be discussed and demonstrated.

Heather McKay, OTR/L, a past caregiver seminar presenter, says about Teepa Snow:

*Dynamic, informative and fun! Teepa Snow brings real solutions for the problems that so many caregivers and people with dementia are struggling with. Participants will learn techniques to practice right away from a caregiver who's been there herself.*

Sponsorship opportunities are available. To learn more about this seminar or to make a reservation, please call Carolyn Berry at 254-753-7722 or 1-800-272-3900. To learn more about Teepa Snow, visit her website at <http://teepasnow.com>.
