P-01  Collaborate in the development, implementation, and maintenance of state Alzheimer's disease plans.

P-02  Integrate cognitive health and impairment into state and local government plans (e.g., aging, coordinated chronic disease, preparedness, falls, and transportation plans).

P-03  Promote incorporation of cognitive health and impairment into state and local public health burden reports.

P-04  Integrate Healthy People 2020 objectives on "Older Adults" and "Dementias, including Alzheimer's disease" topic areas into state-based plans.

P-05  Engage national and state organizations and agencies to examine policies that may differentially impact persons with dementia, including Alzheimer's disease.
