

PSYCHOLOGISTS (Clinical & Neuropsychologists)

Every effort has been made to offer a complete listing of psychologists in Houston and Southeast Texas who have expressed an interest in working with individuals with Alzheimer's. The Chapter staff has attempted to list psychologists available in as many of our 37 county areas as possible. The Alzheimer's Association does not endorse any psychologist listed. Inclusion or exclusion is not an indication of approval or disapproval.

Kay Campbell Ph.D
Clinical Psychologist
