Dear Tournament Participant:

It is our pleasure to present the 6th Annual Gabe Zide Golf Tournament to benefit the Alzheimer's Association, West Virginia Chapter.

This year we are adding the Luau on the Green on Friday night to kick off the tournament festivities. The luau is open to the public, so please feel free to invite your non-golfing friends!

Alzheimer's disease affects over 49,000 people in our Chapter territory, a number that will only continue to grow as our population ages.

A few important facts to know:

- Alzheimer's disease is the seventh leading cause of death in America
- The only known risk factor is age, currently there are no known cause or cure
- One in seven baby boomers will develop Alzheimer's disease

The Alzheimer's Association is attacking Alzheimer's disease from all sides. The Association is the largest private funder of Alzheimer's disease research in the world. But just as important, the West Virginia Chapter is serving individuals, families and communities who are facing this disease right now.

Through events like this golf tournament, the Alzheimer's Association, West Virginia Chapter is able to provide free programs, services and education about Alzheimer's disease, how to detect Alzheimer's disease and caring for individuals with the disease.

Thank you for your generous support,

*2010 Tournament
Planning Committee*
