

Alzheimer's Disease Genetics Global Symposium

Supported by:

- **Release date:** Sept. 22, 2020
- **Expiration date:** Sept. 22, 2021
- **Estimated time to complete activity:** 30 minutes per presentation or between 1.75 – 3.5 hours per session
- **Media:** Internet
- **Computer System Requirements:** Internet browser and connection
- Jointly provided by Postgraduate Institute for Medicine and the Alzheimer's Association

Joint Accreditation Statement

JOINTLY ACCREDITED PROVIDER
ACCREDITATION COUNCIL FOR CONTINUING MEDICAL EDUCATION

In support of improving patient care, this activity has been planned and implemented by the Postgraduate Institute for Medicine and Alzheimer's Association. Postgraduate Institute for Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME).

Physician Continuing Medical Education

Credit Designation

The Postgraduate Institute for Medicine designates this enduring material for a maximum of 16 AMA PRA Category 1 Credit(s)TM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Please note that the final credit amounts may fluctuate.

Target Audience

This activity has been designed to meet the educational needs of physicians involved in the research and/or care of people with Alzheimer's disease and related dementias.

Educational Objectives

After completing this activity, the participant should be better able to:

- Inform the AD community of the advances made in global Alzheimer's genetics and molecular biology.
- Utilize advances in technology to improve diagnosis and monitor disease progression in Alzheimer's disease.
- Review data on global genetic pathway studies.
- Facilitate conversation about using recent study findings in clinical practice and translational research.
- Identify potential targets for treatment of Alzheimer's disease.
- Discuss recommendations for the prevention of Alzheimer's disease.
- Explain therapeutic breakthroughs related to AD genetics.
- Identify emerging strategies likely to drive future advances in Alzheimer's disease.

Disclosure of Conflicts of Interest

Postgraduate Institute for Medicine (PIM) requires instructors, planners, managers, and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest (COI) they may have as related to the content of this activity. All identified COI are thoroughly vetted and resolved according to PIM policy. PIM is committed to providing its learners with high quality activities and related materials that promote improvements or quality in healthcare and not a specific proprietary business interest of a commercial interest.

Planners and Managers: The PIM planners and managers have nothing to disclose. The Alzheimer's Association planners and managers have nothing to disclose.

A complete list of the faculty, with titles, affiliations and disclosure information is available at abstracts@alz.org.

Disclosure of Unlabeled Use

This educational activity may contain discussion of published and/or investigational uses of agents that are not indicated by the FDA. The planners of this activity do not recommend the use of any agent outside of the labeled indications. The opinions expressed in the educational activity are those of the faculty and do not necessarily represent the views of the planners. Please refer to the official prescribing information for each product for discussion of approved indications, contraindications, and warnings.

Disclaimer

Participants have an implied responsibility to use the newly acquired information to enhance patient outcomes and their own professional development. The information presented in this activity is not meant to serve as a guideline for patient management. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without evaluation of their patient's conditions and possible contraindications and/or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities.

Method of Participation and Request for Credit

There are no fees for participating and receiving CME/CE credit for this activity. Participants must read the learning objectives and faculty disclosures and study the educational activity.

If you wish to receive acknowledgment for completing this activity, please follow these steps:

1. Complete the evaluation on www.cmeuniversity.com.
2. On the navigation menu, click on "Find Post-test/Evaluation by Course" and search by course ID: 15819.
3. Upon registering and successfully completing the activity evaluation, your certificate will be made available immediately.
4. **IMPORTANT:** Complete the evaluation **after** you have participated in all of your sessions, as you will not be able to edit your activity evaluation.
