

IMPACT REPORT 2019

alzheimer's  association®

Greater Richmond Chapter

No one should have to face Alzheimer's alone. As the only voluntary health organization that provides care and support services and funds Alzheimer's research, we are uniquely qualified to ensure that everyone who has been impacted by Alzheimer's disease or another dementia, has access to our Care and Support Services.

In fiscal year 2019, the Alzheimer's Association Greater Richmond Chapter provided care and support services at no cost to over 7,000 individuals who have been impacted by Alzheimer's disease or another dementia.

- 1,335 individuals received personalized care planning or found a compassionate specialist by calling 800.272.3900—our 24/7 Helpline.
- 807 individuals with early stage dementia, care partners, and/or family members participated in a support network for encouragement, advice, and social connections through the 30 support groups in our area.
- 4,800 individuals attended an Alzheimer's Association education program through early stage, family caregivers or public awareness programs, our Annual Dementia Conference, or professional dementia training provided to enhance the quality of care in residential care facilities and at home.
- 81 families caring for a loved one with Alzheimer's throughout the Greater Richmond area received grant-funded respite funds.
- The Alzheimer's Association funds independent researchers worldwide through our International Research Grant Program. Currently, the Association is investing over \$165 million in more than 450 projects in 25 countries. Since awarding our first grants in 1982, the Association has invested over \$455 million in nearly 3,000 scientific investigations, funding some of the most instrumental research in Alzheimer's science.

Alzheimer's disease is one of the most critical public health issues in America. This is why we are unrelentingly advocating for public policies that increase critical research funding and support all those affected.

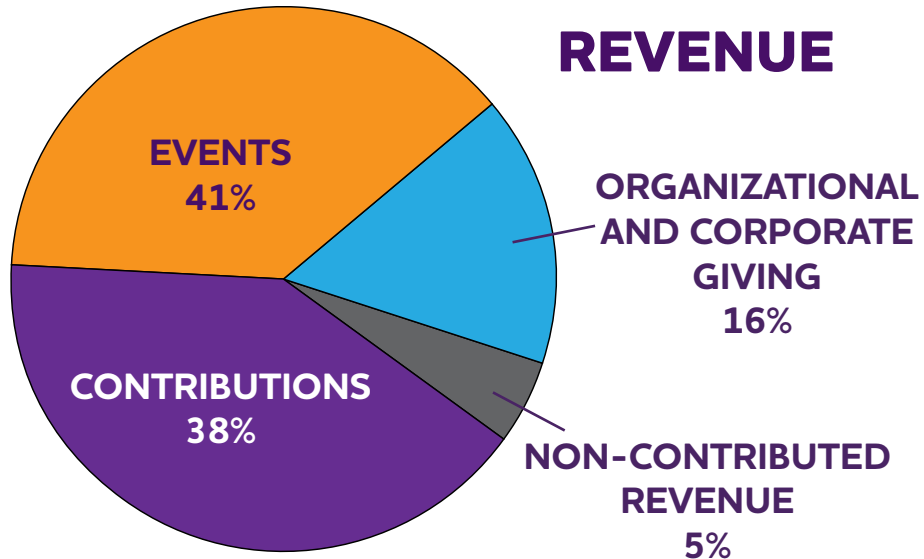

While we are proud to have provided care and support services to almost 7,000 individuals this year, there are over 30,000 individuals in the Greater Richmond area that are living with Alzheimer's disease. We need your continued financial support to expand our care and support services to more individuals who need us. With your help - no one will face Alzheimer's alone.

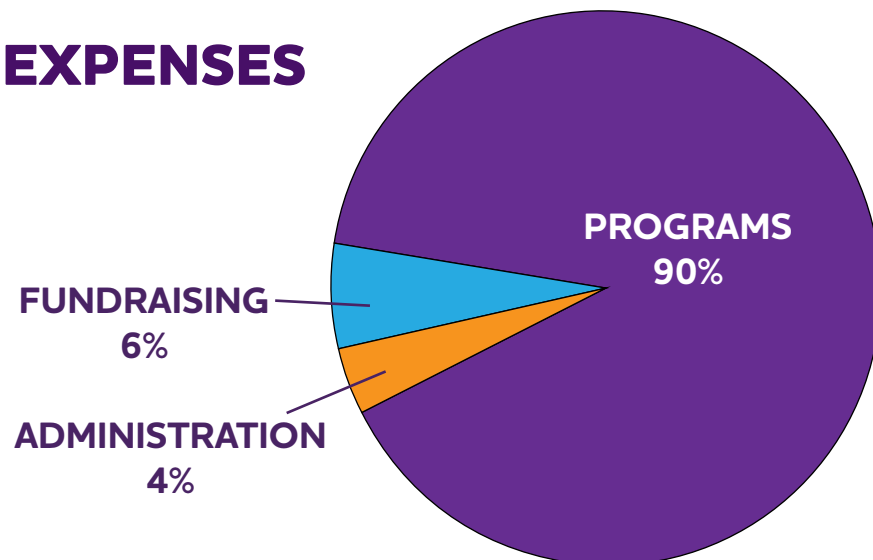

Marie D. Kolendo
