AAIC® Advancements: Toward Health Equity in Alzheimer's and Related Dementias (ADRD) 2023, will explore inequities in prevention, diagnosis and treatment of Alzheimer's and related dementias. The event will also provide a platform for collaboration, networking and mentorship opportunities among early career researchers and more experienced investigators. It is the third such conference planned and hosted in partnership with the National Institute on Aging (NIA).

Sessions are listed in Central Daylight Time (North America). Schedule is current at the time of posting. Content is listed as submitted.

POSTER PRESENTATIONS

Beginning Oct. 30, explore posters and leave comments for authors around the clock. Poster research themes fall within the NIA Health Disparities Research Framework and include behavioral, biological, environmental, sociocultural and other factors.

JOIN MORE THAN 10,000 MEMBERS OF ISTAART IN OVER 120 COUNTRIES AND ADVANCE YOUR CAREER AS PART OF A GLOBAL NETWORK

The Alzheimer's Association® International Society to Advance Alzheimer's Research and Treatment (ISTAART) is an inclusive global network of scientists, clinicians and dementia professionals. Members of this professional organization share common goals: the pursuit of knowledge, collaboration and breakthroughs to advance the research and treatment of Alzheimer's Disease and other dementias.

Register now to access exclusive member benefits:

- Year-round networking opportunities and informative webinars.
- 30 unique Professional Interest Areas (PIAs) that connect members with common subspecialties, providing a flexible forum to learn and collaborate.
- Discounted conference registration and extended abstract submission deadlines.
- Discounted publication fees for the Alzheimer's & Dementia journal family.
- Access to the ISTAART Career Center, an online jobs board curated for members.
- Free membership for individuals in low and middle income countries.

Become a member now at alz.org/ISTAART.
