

Memory Café

These services may have eligibility requirements and require pre-registration, please contact each individual listing for further details.

Memory Cafes are a place where people experiencing cognitive challenges along with caring family members, friends and professional caregivers can find meaningful programming, friendship, and acceptance.

Memory Cafes are welcoming social gatherings for people living with changes in their memory or thinking, and the people who care about them. A Cafe is a place to have fun together, talk with others who understand what you're going through, and try something new! The benefits of attending a dementia café are increased opportunities to meet other people with similar experiences in a friendly, relaxed, and social environment, as well as opportunities to gain more information and support. A dementia café aims to prevent you from becoming isolated from other people.
