Hope on the Harbor

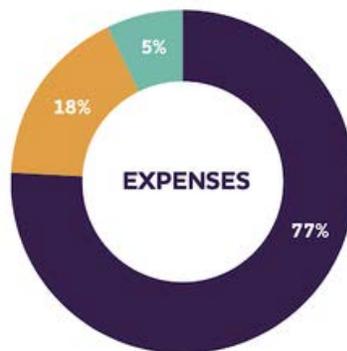

Hope on the Harbor is an annual gala that unites corporate and philanthropic leaders from across Greater Boston in support of the Alzheimer's Association's vital mission. Each year, this inspiring event pays tribute to extraordinary families, individuals, and corporate partners whose dedication is driving meaningful progress in the fight against Alzheimer's. As our premier event, Hope on the Harbor raises essential awareness and funds that advance our vision of a world without Alzheimer's and all other dementias.

The Alzheimer's Association is the leading voluntary health organization in Alzheimer's care, support and research.

Our Vision: A world without Alzheimer's and all other dementia.

Our Mission: The Alzheimer's Association leads the way to end Alzheimer's and all other dementia by accelerating global research, driving risk reduction and early detection, and maximizing quality care and support.

WHERE DO MY DONATIONS GO?

- Alzheimer's Care, Support, Research, Awareness & Advocacy
- Fundraising
- Management & General

6 in 10 caregivers were employed in the past year.

These individuals worked an average of

35 hours

per week while caregiving.

18% of caregivers went from full-time to part-time or cut back hours.

Nine percent

of caregivers gave up working entirely.

57% OF EMPLOYED CAREGIVERS HAD TO GO IN TO WORK LATE, LEAVE EARLY OR TAKE TIME OFF DUE TO CAREGIVING DEMANDS.

Six percent retired early.

CARE AND SUPPORT

We work on a national and local level to provide care and support for all those affected by Alzheimer's and all other dementia.

RESEARCH

As the largest nonprofit funder of Alzheimer's research, the Association currently has over \$450 million invested in over 1,200 active projects in 56 countries that are working toward methods of treatment, prevention and ultimately, a cure.

ADVOCACY

The Association is the leading voice for Alzheimer's disease advocacy, fighting for critical Alzheimer's research and care initiatives at the state and federal level.

WHY SPONSOR?

"Alzheimer's disease touches countless lives, and the work of the Alzheimer's Association is critical in providing care, resources and advancing research toward a cure. We believe in the power of community and the importance of standing together to make a lasting difference. Many of our associates have built deep and meaningful relationships with the Association, joining the fight against Alzheimer's disease. Progress is being made, but continued support is essential, and we are proud to support this mission and the extraordinary efforts that bring hope to families and caregivers everywhere. Together, we can help drive meaningful change and improve lives today while working toward a future without Alzheimer's. Thank you to the Alzheimer's Association for your unwavering commitment and to everyone here joining in this fight."

- Capital Group

"We, at Cognito Therapeutics, are proud to support the Alzheimer's Association and share the belief that progress against Alzheimer's begins with innovation guided by empathy. Together, we can advance the discoveries that protect memory, preserve independence, and bring lasting hope to millions of people and families living with this disease - turning today's breakthroughs into tomorrow's impact."

- Emily Iopao
 Cognito Therapeutics

"I can't say enough good things about the Alzheimer's Association. After months of depression after my diagnosis, I had an epiphany that I would devote my life to helping overcome the stigma of Alzheimer's and helping others with the disease in whatever way I could. The Association provided the perfect spot for that through its Early Stage Advisory Group and the opportunity to speak to a wide range of others. In addition to being talented and competent, I have found the staff to be incredibly caring. It's like having a second home. I am impressed with all the services it offers at no cost, especially the 24/7 hotline. The research it funds and actually carries out is second to none and critical to the ultimate development of a cure. The total scope of the organization is amazingly comprehensive, whether its treatment, advocacy, public awareness, research and care and support. Best of all, it's helped give me hope."
