

SUNDAY, JULY 12

	S8	ICC Auditorium	N11	S11	N10	George V 3/4	George V 1/2	Victoria 1/4	Victoria 5/6	Victoria 2/3	
8-8:45 a.m.		DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Sex And Gender Differences In AD And Related Dementias	LPR: Aging And Women's Health In Alzheimer's Disease And Related Dementias	DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Various Aspects Of Clinical Drug Development	LPR: Life-Course Environmental And Social Determinants Of Dementia: From Evidence To Prevention Strategies	LPR: Connecting The Drops: Trajectories And Novel Fluid Biomarkers In Early AD	
	9-10:30 a.m.	DEV: Developing Topic Session	PER: Climate Changes, War And Migration: New Challenges For Dementia Care	FRS: Neuropathology And Omics	FRS:  Enabling The Tau Therapeutic Pipeline	FRS:  Advances And Real-World Impact Of Blood-Based Biomarkers	FRS: International Harmonized Assessment Of Dementia: Leveraging HRS-INS Around The World	FRS: Advancing Dementia Care Across The Continuum: Detection, Treatment Innovation, And Economic Impact	FRS: Metabolic Adaptations And Mitochondrial Dysfunction In ADRD	PER: Visual Pathways Of Vulnerability From The Eye, Brain And Beyond	
10 a.m.-4:15 p.m.		ICC Maritime Hall		Exhibit Hall Open							
10:30-11 a.m.		ICC Maritime Hall		Beverage Break With Exhibits And Posters			ICC Maritime Hall Product Theater Presentations				
11 a.m.-12:15 p.m.		S8		PL: Welcome And Awards Plenary PL: Ryan Watts : Accelerating The Discovery And Development Of Medicines For Neurodegeneration							
12:15-2 p.m.		ICC Maritime Hall		Boxed Lunch With Exhibits And Posters			Trinity 1/2, 3, 4, 5; Connaught 3,4  ISTAART Intermissions				
12:25-2 p.m.		ICC Maritime Hall		Product Theater Presentations							
2-3:30 p.m.	FRS: Dissecting Molecular Heterogeneity In AD With High Resolution Spatial And Single-Cell Techniques	FRS: Emerging Approaches To Targeted Delivery Of Protein And Oligonucleotide Therapeutics For Neurodegenerative Diseases	DEV: Developing Topic Session	FRS: Dementia In Africa: Bridging The Gap Between High-Level Genomic Research And Community-Led Dementia Prevention And Care Strategies	FRS: Advances In Neuropathological Characterization And Biomarkers Of Limbic Predominant Age Related TDP-43 Encephalopathy	FRS: Biofluid Proteome Changes In Association With Modulating Factors And Treatment Of Primary AD Pathology	ECBS:  Novel Systems-3D, Organoids And Xenograft Models To Study Neurodegeneration	FRS: Tau Pathology: From Synaptic Loss To Phenotypic Mismatch	PER: Diagnosis And Multidisciplinary Care Across Cultures	FRS: Supporting The Supporters: Global Evidence On Family Caregiving In Dementia	
	3:30-4:15 p.m.		ICC Maritime Hall		Beverage Break With Exhibits And Posters			Connaught 2, 3 Guided Electronic Posters			
3:40-4:10 p.m.		ICC Maritime Hall Stage 2 PL: ASK! Session With Maria Carrillo And Joanne Pike									
4:15-5:45 p.m.	FRS:  Timelines Of Down Syndrome-Associated Alzheimer's Disease To Advance Clinical Trials	DEV: Developing Topic Session	DEV: Developing Topic Session	FRS: Cerebral Amyloid Angiopathy In ADRD	FRS:  Menopause As A Window Of Alzheimer's Disease Risk: Neurocognitive Pathways In Women	PER: Global Perspectives On Building Trial-Ready Alzheimer's Research Sites For Drug Development	CTB:  Mini Clinicopathological Correlation (CPC) Conference	DEV: Developing Topic Session	FRS: Understanding Molecular Resilience And Vulnerability In Alzheimer's Disease	PER: Why Brains Age Unequally: On Brain Ageing And Dementia Prevention Through The Exposome Lens	

MONDAY, JULY 13

	S8	ICC Auditorium	N11	S11	N10	George V 3/4	George V 1/2	Victoria 1/4	Victoria 5/6	Victoria 2/3	
8-8:45 a.m.		DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Astrogliosis, Inflammation, And Lifestyle/ Endocrine Impacts	LPR: Reserve And Resilience In Cognitive Impairment And Dementia	DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Various Aspects Of Preclinical Drug Development	LPR: Emerging Interventions Across The Dementia Care Pathway	LPR: Factors Influencing Dementia Disease Trajectory	
	9-10:30 a.m.	PER: Normal Pressure Hydrocephalus: Emerging Research And Future Directions	DEV: Developing Topic Session	CTB: Case-Based Approaches To Diagnosis, Eligibility, And Monitoring Of Anti-Amyloid Therapies	FRS: External Controls In Alzheimer's Clinical Trials: How Far Away Are We?	FRS: Lifestyle Intervention And Brain Health: Insights From US POINTER Study	FRS: Alzheimer's Therapy: Mechanisms Beyond Amyloid	FRS: Social Determinants Of Health And Alzheimer's Disease And Related Dementias: Global And Unique Population Perspectives To Maximize Understanding Of Biological, Cognitive, And Psychosocial Outcomes	FRS: Phenotypes In Subjective Cognitive Decline	FRS: Exposomes, Environment, And Dementia Risk: New Evidence At The Population Level	
10 a.m.-4:15 p.m.		ICC Maritime Hall		Exhibit Hall Open							
10:30-11 a.m.		ICC Maritime Hall		Beverage Break With Exhibits And Posters			ICC Maritime Hall Product Theater Presentations				
11 a.m.-12:15 p.m.		S8		PL: Suzanne Schindler : Eligibility For Anti-Amyloid Immunotherapy: Amyloid Biomarkers In The Real World PL: Daisy Acosta : Understanding Dementia In Latin America: New Insights From The 10/66 Studies							
12:15-2 p.m.		ICC Maritime Hall		Boxed Lunch With Exhibits And Posters			12:15-2 p.m.		Trinity 1/2, 3, 4, 5		
12:25-2 p.m.		ICC Maritime Hall		Product Theater Presentations			12:30-1:45 p.m.		Connaught 2, 3, 4		
2-3:30 p.m.		FRS: LatAm-FINGERS: Main Findings From A Large Randomized Controlled Trial Of A Multidomain Lifestyle Intervention To Prevent Cognitive Decline Across Latin America	FRS: Resistance And Resilience In Down Syndrome-Associated Alzheimer's Disease	DEV: Developing Topic Session	PER: Integrating Multimodal Biomarkers For Dementia Prognosis: From Research Into Clinical Care	FRS: Achieving Cognitive Resilience In The Oldest-Old To Advance Brain Health In Longevity	PER: AD, Tauopathy, And Astrocytes	PER: Recent Tau Trials: Clinical, Biomarker, Preclinical Learnings And Next Generation Therapy	FRS: Why White Matter Matters In Alzheimer's Disease And Related Diseases?	FRS: Beyond The Exome: Contributions Of Noncoding Variants And The Dark Genome To Neurodegeneration	
3:30-4:15 p.m.		ICC Maritime Hall		Beverage Break With Exhibits And Posters			Connaught 2, 3, 4 Guided Electronic Posters				
3:40-4:10 p.m.		ICC Maritime Hall		Stage 1 PL: ASK! Q&A Session With Plenary Speaker Ryan Watts					Stage 2 PL: ASK! Q&A Session With Plenary Speakers Daisy Acosta And Suzanne Schindler		
4:15-5:45 p.m.	FRS: Multi-Cohort Approaches To Multidimensional Sleep And Cognitive Aging: From Data Harmonization To IPD Meta-Analysis	DEV: Developing Topic Session	DEV: Developing Topic Session	FRS: Sociodemographic Determinants Of Health And Dementia In Low- And Middle-Income Countries	FRS: Vulnerability In AD And Tauopathies	FRS: Designing For Inclusion: Proven Strategies To Engage Historically Excluded Communities In AD/DR Research	FRS: Translational Multi-Omics Approaches In Alzheimer's Disease	FRS: Understanding Sex Differences At The Intersection Of Tau And Alpha Synuclein	FRS: <i>In Vivo</i> Biomarker And Neuropathological Correlates Of Transitional Cognitive Decline	FRS: Neuroprotective Signaling Governing Brain Resilience To Counteract Alzheimer's Disease	

TUESDAY, JULY 14

	S8	ICC Auditorium	N11	S11	N10	George V 3/4	George V 1/2	Victoria 1/4	Victoria 5/6	Victoria 2/3
8-8:45 a.m.		CTB:  From Evidence To Practice: Implementing Alzheimer's Association Clinical Guidance In Real World Care	DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Multimodal Neuroimaging: Microstructure, Atrophy, And Machine Learning	DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Innovative Approaches Toward Inclusive Assessment Of Dementia Risk And Burden	LPR: Various Aspects Of Biomarkers For Drug Development	LPR: Proteomic, Proteostatic And Post-Translational Changes Associated With Disease Progression
	9-10:30 a.m.	FRS:  Interpretation And Clinical Applicability Of Blood Biomarkers Of Alzheimer's Disease Across Contexts, Settings, And Health Care Systems	DEV: Developing Topic Session	FRS: Family And Social Impact Of Dementia: Caregiving, Work, And Policy	FRS:  Anti-Amyloid Therapy: Real World Experience	ECBS:  Accelerating The Characterization Of Protein Structure And Posttranslational Modifications To Improve Therapeutic Targets For Neurodegenerative Disease	FRS: Brain Health In Action: Organization-Led Efforts Across The Globe	FRS: Innovative Trial Designs, Statistical Methods, And Endpoints In Alzheimer's Disease Clinical Research	PER: Adding V To ATN: Challenges And Opportunities	CTB:  What's Possible At Mealtimes: Restoring Person-Centered Eating And Swallowing Care In Dementia
10 a.m.-4:15 p.m.		ICC Maritime Hall	Exhibit Hall Open							
10:30-11 a.m.		ICC Maritime Hall	Beverage Break With Exhibits And Posters			ICC Maritime Hall	Product Theater Presentations			
11 a.m.-12:15 p.m.		S8	PL: Takaomi C. Saido : From Curiosity To Cure: The Neprilysin-Donanemab & Amyloid Beta-Tau Axes In Alzheimer's Disease PL: Betty Tijms : Proteomic Subtypes Of AD: What Do They Mean And How Will They Influence Or Benefit Drug Development For Alzheimer's Disease?							
12:15-2 p.m.		ICC Maritime Hall	Boxed Lunch With Exhibits And Posters			12:15-2 p.m.	Trinity 1/2, 3, 4, 5	 ISTAART Intermissions		
12:25-2 p.m.		ICC Maritime Hall	Product Theater Presentations			12:30-1:45 p.m.	Connaught 2, 3, 4	 ISTAART Skills Workshops		
2-3:30 p.m.	FRS: Shuttling Past The Barrier: From Brainshuttle™ AD Long-Term Trontinemab Data To Secondary Prevention Of AD In PreventRON	DEV: Developing Topic Session	DEV: Developing Topic Session	FRS: Vascular-Immune Interactions: Understanding How Their Dysregulation Contributes To Alzheimer's Disease	PER:  Neuroimmune Targets For Neurodegenerative Diseases	CTB:  Managing Neuropsychiatric Features Across Dementias	FRS:  Applying The New Biological Frameworks For Neuronal Synucleinopathy: From Staging To Treatment	FRS: Strengthening Health Services Research In Brain Health And Dementia Care: Field Gaps, Priorities, And Promising Initiatives Across Countries	FRS: Strategies To Prevent Dementia In The General Population	PER: Insights Into Healthy Aging From Longitudinal Cohorts
	3:30-4:15 p.m.	ICC Maritime Hall	Beverage Break With Exhibits And Posters			Connaught 2, 3, 4	Guided Electronic Posters			
3:40-4:10 p.m.		ICC Maritime Hall	Stage 1 PL: ASK! Q&A Session With AAIC Award Winners			Stage 2 PL: ASK! Q&A Session With Plenary Speakers Takaomi Saido And Betty Tijms				
4:15-5:45 p.m.	DEV: Developing Topic Session	FRS: Sleep Disturbances And Alzheimer's Disease Trajectories: A Biomarker-Based Perspective	DEV: Developing Topic Session	FRS: Biological Mechanisms Of Neuropsychiatric Symptoms In Dementia: From Biomarkers To Therapeutic Targets	PER:  Anti-Amyloid Therapies For Alzheimer's Disease: Challenges For Implementation In Different Countries And Health Systems	FRS: Neuropsychiatric Symptoms And Alzheimer's Disease Biomarkers: Distinct Pathways And Clinical Implications In Non-Demented Older Adults	ECBS:  Emerging Concepts In Basic Science: Panel Discussion	FRS: Metabolomics And Metagenomics Inform About Diet And Lifestyle Interventions And Cognitive Function	FRS: Modeling Immune-Brain Interactions In Alzheimer's Disease Using Chimeric Systems	FRS: Improving Brain Health And Dementia Care Through Art And Technology

WEDNESDAY, JULY 15

	S8	ICC Auditorium	N11	S11	N10	George V 3/4	George V 1/2	Victoria 1/4	Victoria 5/6	Victoria 2/3	
8-8:45 a.m.		DEV: Developing Topic Session	DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Dementia Diagnosis And Interventions At The Primary Care Level And Among Underrepresented Populations	LPR: Contribution Of Innovative Methods To Epidemiological Studies In Dementia	DEV: Developing Topic Session	DEV: Developing Topic Session	LPR: Frontotemporal Lobar Degeneration: Clinical And Biomarker Signatures	LPR: Tau Pathogenesis In AD/DR	
	9-10:30 a.m.	DEV: Developing Topic Session	PER: Navigating Anti-Amyloid Therapy In Alzheimer's Disease: Monitoring, Management, And Maintenance	FRS: Leveraging The Understanding Of APOE Biological Pathways Into APOE-Targeted Therapies	FRS: Dementia With Lewy Bodies: Clinical And Neuropathological Insights	FRS: Emerging Non-AD Pathologies, Atypical Dementias, And Digital Phenotyping	FRS: Globalizing AD Genetics: Evidence And Gaps From Low- And Middle-Income Countries	FRS: Advances In Therapeutic Approaches In Alzheimer's Disease And Related Dementias	FRS: Multi-Regional Perspective On Interconnected Physical, Mental And Cognitive Impairment	FRS: Bilingualism And Linguistic Diversity In Dementia Symptom Characterization	
10 a.m.-4:15 p.m.		ICC Maritime Hall Exhibit Hall Open		10:30-11 a.m.		ICC Maritime Hall Beverage Break With Exhibits And Posters		ICC Maritime Hall Product Theater Presentations			
11 a.m.-12:15 p.m.		S8		PL: Zahinoor Ismail : Neuropsychiatric Manifestations Of Alzheimer's Disease And Other Dementia PL: Dag Aarsland : Prevalence Of Alzheimer's Disease Pathology In The Community							
12:15-2 p.m.		ICC Maritime Hall Boxed Lunch With Exhibits And Posters		12:15-2 p.m.		Trinity 1/2, 3, 4, 5		ISTAART Intermissions			
12:25-2 p.m.		ICC Maritime Hall Product Theater Presentations		12:30-1:45 p.m.		Connaught 2, 3, 4		ISTAART Skills Workshops			
2-3:30 p.m.	FRS: Global Population Studies Illuminate Alzheimer's Disease Biology	FRS: Considerations For The Progression Of Alzheimer's Disease From Cognitively Unimpaired To Cognitive Impairment: Weighing These Risks	DEV: Developing Topic Session	FRS: Glial Targets In Neurodegeneration: From Functional Genomics To Therapeutic Discovery	FRS: Inflammatory And Reproductive Health Pathways Contributing To Women's Higher Risk Of Alzheimer's Disease	CTB: The Use Of Biomarkers In Clinical Practice	CTB: Beyond The Diagnosis: Multidisciplinary Management Of LBD Across The Disease Continuum	FRS: Competing Or Complementary? PET And Plasma Biomarkers In Research And Practice	FRS: Next-Generation Neuroimaging: Monitoring Treatments And Disease Progression	FRS: Advances In Cognitive Training	
	3:30-4:15 p.m.	ICC Maritime Hall Beverage Break With Exhibits And Posters		Connaught 2		Guided Electronic Poster					
3:40-4:10 p.m.		ICC Maritime Hall Stage 1 PL: ASK! Q&A Session With The Editors Of The A&D Family Of Journals		Stage 2 PL: ASK! Q&A Session With Plenary Speakers Dag Aarsland And Zahinoor Ismail							
4:15-5:45 p.m.	FRS: An Update On Imaging And Fluid Biomarkers In Lewy Body Dementia	FRS: Next Generation Strategies To Target Broad Underlying Pathologies In Dementias	DEV: Developing Topic Session	FRS: Axes Of Brain Organization: A Unifying View Of Aging And Dementia	FRS: Prevalence, Incidence And Clinical Outcomes Of MCI And Dementia	FRS: Mapping The Inflammatory Landscape Across Neurodegenerative Diseases: Multimodal Paths Towards Therapeutic Targets	FRS: Cerebrovascular Contributions And Multi-Omics In Brain Aging	FRS: Sleep And Neurodegeneration	FRS: AD/DR Diagnosis, Intervention, And Care Across Diverse Clinical Contexts: Challenges And Opportunities	FRS: Harmonization Of Tau PET Data
