

This itinerary of **Highlights for a General Audience** has been curated by the **Alzheimer's Association Medical and Scientific Relations team** to highlight the content that is most accessible to a **general audience**.

In addition to these highlights, **AAIC® For All** is a new extension of AAIC. A no-cost, single-day event, AAIC For All is an opportunity for clinicians and interested community members to learn about the latest research findings. AAIC For All takes place on the final day of AAIC, so you will be among the first to hear about cutting-edge research announced at the conference.

Sessions are listed in British Summer Time (BST).

Schedule is current at the time of posting. Titles are listed as submitted.

All sessions listed are hybrid and can be viewed live by both in-person and online attendees.

Speaker order will vary from what is listed on this document; please refer to the online program for finalized speaker order.

Recordings will be available immediately and accessible to watch online for 30-days

Plenary Sessions

Hear updates from the Alzheimer's Association and learn about the state of the field from a leading expert. All plenary sessions are in Hall S9.

Date and Time	Session
Sunday, July 12 11:00 a.m.	Accelerating the Discovery and Development of Medicines for Neurodegeneration, Ryan Watts
Monday, July 13 11:00 a.m.	Eligibility for Anti-Amyloid Immunotherapy: Amyloid Biomarkers in the Real World, Suzanne E. Schindler Understanding Dementia in Latin America: New Insights from the 10/66 Studies, Daisy Acosta
Tuesday, July 14 11:00 a.m.	From Curiosity to Cure: The Neprilysin-Donanemab and Amyloid Beta-Tau Axes in Alzheimer's Disease, Takaomi C. Saido Proteomic Subtypes of AD: What Do They Mean and How Will They Influence or Benefit Drug Development for Alzheimer's Disease?, Betty Tijms
Wednesday, July 15 11:00 a.m.	Neuropsychiatric Manifestations of Alzheimer's Disease and Other Dementia, Zahinoor Ismail Prevalence of Alzheimer's Disease Pathology in the Community, Dag Aarsland

Scientific Sessions

Attend sessions and engage in live discussion.

Date, Time & Location	Session
Sunday, July 12 8-8:45 a.m.	Life-course Environmental and Social Determinants of Dementia: From Evidence to Prevention Strategies Session Chairs: Claire Burley and Xin Xu - Trends In Incidence, Prevalence, And Mortality Of Alzheimer's Disease And Other Dementias In The United States, 1990-2023; Arkansh Sharma - Co-designing A Healthy Brain Ageing Resource: Community Priorities For Dementia Prevention In Western Australia; Claire Burley - Dementia Prevention Requires Moving Beyond Individual Choice: The Costs Of Effort And Time Intersect With Social Determinants Of Health; Daniel Araya-Ríos - Childhood Predictors Of Dementia And Mortality: 78 Year Follow Up Of The 1946 British Birth Cohort; Josh King-Robson - Implementing A Multi-domain Dementia Prevention Intervention In China: Baseline And Process Evaluation Of The Heritage Cluster RCT; Ting Pang
Sunday, July 12 9-10:30 a.m. Victoria 1/4	Advancing Dementia Care Across the Continuum: Detection, Treatment Innovation, and Economic Impact Session Chairs: Geoffrey Joyce and Heather Snyder - Medical Costs for Hospitalized Patients With and Without Dementia; Amanda Chen - Willingness to Pay for Novel Dementia Treatments: Treatment Attributes and Disease Awareness Across Racial/Ethnic Groups; J. Felipe Montano-Campos - Extending Results Of The U.S. POINTER Trial To Examine Economic Impacts; Jack Chapel - Improving dementia care in diverse populations: use and impact of Medicare's chronic care management; Johanna Thunell - Racial and Ethnic Differences in Demand for Novel Dementia Therapies: Evidence from a National Survey of Older Adults' Preferences Across Dementia Drug Attributes; Julie Zissimopoulos
Sunday, July 12 9-10:30 a.m. N11B	Climate changes, war, and migration: new challenges for dementia care Session Chairs: Joseph Kane and Megan Zuelsdorff - Air pollution and dementia risk; Anna Oudin - Effects of extreme heat on dementia: experiences from Japan; Ayako Morita - Dementia care of migrants in Europe; Marco Canevelli - An overview of the effects of war exposure on cognitive function in conflict settings; Tran Khanh Toan
Sunday, July 12 9-10:30 a.m. Victoria 2/3	Visual pathways of vulnerability from the eye, brain and beyond Session Chairs: Frank Heide and Görsev Yener The Neuropathology Of The Visual System In Alzheimer's Disease; Dietmar Thal

	• Detecting Dementia-related Vision Loss Across UK Biobank And International Clinical Cohorts; Keir Yong • Clinical And Management Implications Of Visual Loss In Dementia; Maki Suzuki • Current Evidence And Potential Mechanisms For Associations Between Vision Loss And Dementia; Natalie Phillips
Sunday, July 12 2-3:30 p.m S11	Dementia in Africa: bridging the gap between high-level genomic research and community-led dementia prevention and care strategies Session Chairs: Christine Musyimi and Omonigho Bubu • Africa-FINGERS: An Innovative Community-Grounded Precision Health Strategy for Dementia Risk Reduction in Africa; Chinedu T Udeh-Momoh • From Stigma to Strategy: Leveraging a Dementia Anti-Stigma Intervention to Improve Early Detection among Older Adults; Christine Musyimi • Gut Microbiome Dysbiosis as an Early and Modifiable Pathway in Cognitive Decline: Evidence from Older Ugandans; Kamada Lwere • Risk Factors And Genetics Of Dementia In Africa; Rufus Akinyemi
Sunday, July 12 2-3:30 p.m Victoria 2/3	Supporting the Supporters: Global Evidence on Family Caregiving in Dementia Session Chairs: Blair Golden and Naoko Kishita • Dramatization Improves Caregiver Understanding Of Dementia-related Neuropsychiatric Symptoms In A Randomized Pilot Trial; Armagan Uysal • Contradictions In Family Dementia Care In A Low- And Middle-income Country; Barbara Cabral • A Multicentre Randomized Controlled Trial Of Internet-delivered Self-help Acceptance And Commitment Therapy For Dementia Family Carers; Naoko Kishita • Caregiver Burden And Quality Of Live In Biomarker-confirmed Alzheimer's Disease; Núria Guillén • Charting The Uncharted: A Narrative Review To Identify Priority Gaps In Research And Policy For Nigerian Dementia Caregivers; Oluwabunmi Onipede • Anxiety As A Mediator Linking Caregiver Relationship To Falls And Unsteadiness In Adults With Cognitive Impairment; Shaoqing Ge
Sunday, July 12 4:15-5:45 p.m ICC Auditorium	Lecanemab Subcutaneous Formulation in Early Alzheimer's Disease: Emerging Clinical Evidence and Practical Use Considerations Session Chairs: Larisa Reyderman and Michael Irizarry • Clinical Outcomes And Patient Experience Of Subcutaneous Lecanemab Administration From An Alzheimer's Disease Treatment Center; David Watson • Safety Profile Of A Subcutaneous Lecanemab Formulation; Michael Irizarry • Real-World Patient-Reported Outcomes With Subcutaneous Lecanemab In Early Alzheimer's Disease In The United States: A Case Series; Victor Faradji • Overview Of Lecanemab Subcutaneous Formulation In Early Alzheimer's Disease (AD); Larisa Reyderman
Sunday, July 12	Timelines of Down syndrome-associated Alzheimer's disease to advance clinical trials

4:15-5:45 p.m S9	Session Chairs: Michael Rafii and Patrick Lao • Alterations In Biomarkers Of Glymphatic Function In Relation To Alzheimer Disease Pathology In Down Syndrome; Jason Russell • The Interactive Role of APOE and Sex in Down Syndrome Alzheimer's Disease; Julie Wisch • Cognitive Composites decline earlier in Down Syndrome compared to Neurotypical Adults on the Alzheimer's Disease biomarker timeline; Matthew Zammit • Synergistic convergence of vascular dysfunction and amyloid drives tau pathology in adults with Down syndrome; Natalie Edwards • Longitudinal Trajectories of Cognition in relation to PET and Plasma Biomarkers in Down syndrome Alzheimer's Disease; Sigan Hartley
Sunday, July 12 4:15-5:45 p.m N11A	Menopause as a Window of Alzheimer's Disease Risk: Neurocognitive Pathways in Women Session Chairs: Amber Watts Ashley Curtis • Study Design for Investigating Risk and Protective Factors for Cognitive Function in the Menopause Transition (MenoCog); Amber Watts • The Menopausal Mind: Sleep And Immune Function As Modifiable Alzheimer's Disease Risk Factors; Ashley Curtis • Cognitive Behavioral Treatment Of Insomnia As A Neuroprotective Strategy: Sleep, Pain, And Alzheimer's Disease Biomarkers In Women; Christina McCrae • SMART Brain: Study Of Menopause And Resistance Training For Brain Health; Joel Burma
Monday, July 13 8-8:45 a.m. N11A	Reserve and resilience in cognitive impairment and dementia Session Chairs: Madeline Wood Alexander and Paulo Caramelli • Earlier Menopause Exacerbates Associations Between APOEε4 And Alzheimer's Disease Risk; Madeline Wood Alexander • Evidence For Bilingualism As A Cognitive Reserve Factor In Biomarker-confirmed Alzheimer's Disease; Miguel Santos Santos • Childhood Rurality And Cognitive Reserve; Rachel Peterson • Long-term Adherence And Changes In The Mediterranean And Mind Diets In Relation To Dementia Risk And Cognitive Function; Yuxi Liu • Longitudinal Changes In Sleep, Napping, And Circadian Rest-activity Rhythms And Risk Of Cognitive Impairment In Oldest-old Women; Yue Leng • Medit-ageing Intervention: Can Meditation Reduce Negative Psychoaffective Burden And Enhance Protective Factors In Aging?; Gaël Chetelat
Monday, July 13 8-8:45 a.m. Victoria 5/6	Emerging interventions across the dementia care pathway Session Chairs: Joseph Kane and Katrina Davis • From Early Life To Aging: Counseling Intervention For Dementia Prevention In Sub-saharan Africa; Elizabeth Omotoso • Neuroscientifically-informed, Personalised Remote Music Intervention For People Living With Dementia And Their Carers; Jessica Jiang • (not) Treating Depression Or (not) Treating Dementia? Antidepressants Prescribed At Dementia Diagnosis; Katrina Davis • Developing A Best Practice Guide To Optimize Digital Resource Provision For People Affected

	By Non-memory-led Dementia; Oliver Hayes - Co-producing Enhance: A Coach-supported App-based Multidomain Dementia-prevention Intervention For Underserved Older Adults; Tsz Kiu Yu - Nuanced Attitudes Towards The Study Partner Requirement In Preclinical Alzheimer's Disease Trials Among Diverse Populations; Yiren Xu
Monday, July 13 9-10:30 a.m. Victoria 1/4	Social Determinants of Health and Alzheimer Disease and Related Dementias: Global and Unique Population Perspectives to Maximize Understanding of Biological, Cognitive, and Psychosocial Outcomes Session Chairs: Cristina Román and Wyllians Borelli - Sociodemographic Determinants Of Cognitive Health Among Indigenous Amazonian Older Adults; Arantxa Sanchez Boluarte - Variability in the social and psychosocial correlates of post-pandemic midlife depression at the intersection of race, ethnicity, and gender in the U.S.: Findings from the Healthy Aging with Resilient Identities study; Ganga Bey - Impact Of Social Determinants Of Health On Longitudinal Cognitive Trajectories In Latin America; Jorge J Llibre Guerra - Rethinking Dementia Risk In India With Cumulative Disadvantage Life Course Structural Social Determinants Of Health Framework; Preeti Zanwar
Monday, July 13 2-3:30 p.m. S9	LatAm-FINGERS: Main Findings from a Large Randomized Controlled Trial of a Multidomain Lifestyle Intervention to Prevent Cognitive Decline Across Latin America Session Chairs: Maria Carrillo and Miia Kivipelto - Participant and Investigator Perspectives from the LatAm-FINGERS Trial: A Video Presentation; Ana Luisa Sosa-Ortiz - Subgroup Analyses, Adherence, and Safety of a Multidomain Lifestyle Intervention to Prevent Cognitive Decline in Latin America: Results from the LatAm-FINGERS Trial; Claudia K. Suemoto - LatAm-FINGERS: Main Findings from a Large Randomized Controlled Trial of a Multidomain Lifestyle Intervention to Prevent Cognitive Decline Across Latin America; Lucia Crivelli - LatAm-FINGERS: Study design, harmonization, and recruitment of a multidomain randomized trial to prevent cognitive decline in Latin America; Paulo Caramelli
Monday, July 13 2-3:30 p.m. N11A	Achieving Cognitive Resilience in the Oldest-Old to Advance Brain Health in Longevity Session Chairs: Ana Capuano and Brian Gold - Brain And Cognitive Maintenance In Super Aging: Longitudinal Evidence From The Betula Study; Emma Rodrigues - Exploring multi-level stressors and pathways to inform cognitive resilience among diverse older adults; Ana Capuano - The SuperAging Research Initiative: Identifying Protective Mechanisms of Cognitive Resilience and Resistance in Late Life; Emily Rogalski - The 100-plus Study and Pathways to Cognitive Resilience in Extreme Longevity; Henne Holstege - Profiles Of Extreme Cognitive Superaging: Blood Biomarkers And Neuropathology Of

	Centenarian Cognitive Superagers; Stacy Andersen Genetic, neuroanatomical, and neuropathological features of older adults with exceptional memory performance; Timothy Hohman
Monday, July 13 2-3:30 p.m. GeorgeV 1/2	Recent tau trials: clinical, biomarker, preclinical learnings and next generation therapy Session Chairs: Guenter Hoeglinger and Henrik Zetterberg - Clinical learnings from recent tau clinical trials; Guenter Hoeglinger - Soluble biomarker learnings from recent tau clinical trials; Henrik Zetterberg - The advancing landscape of AD trials from ABeta to tau and backtranslation to human pathobiology; Ilse Dewachter - Example Of A Next Generation Strategy Targeting Tau: NIDB-3101 Biparatopic Antibody PK, PD And Tolerability Data; Jean-Philippe Courade - Imaging biomarker learnings from recent tau clinical trials; Sterling Johnson - Example Of A Next Generation Strategy Targeting Tau: NIDB-3101 Biparatopic Antibody Binding To Human Brain Tissue And Seeds; Wilma Van de Berg
Monday, July 13 2-3:30 p.m. Victoria 2/3	Health Equity, Community Engagement, and Culturally Responsive Dementia Care Session Chairs: Carey Gleason and Saswat Kabisatpathy - Community Pharmacies as Scalable Access Points for Early Cognitive Screening: A Multi-State Implementation Study; Saswat Kabisatpathy - Community-driven, Culturally Tailored Recruitment Of Older Asian Americans For Alzheimer's Research: ARISE Pilot Study; Bora Nam - Clinic-based Enrollment And Risk For Progression Differs By Racialized Group: A Case For Community-based Recruitment; Carey Gleason - Changes In Dementia Stigma: Insights From Walking The Talk For Dementia 2025 & 2024; Joaquin Migeot - Community-led, Evidence-based Approaches To Dementia Research And Care For Indigenous People Living In The Torres Strait; Sarah Russell - Promoting Wellbeing - A Personal Reflection On What Really Matters To Me; William YEATES
Monday, July 13 4:15-5:45 p.m S11	Sociodemographic Determinants of Health and Dementia in Low- and Middle-Income Countries Session Chairs: Maria Aparecida Bicalho and Omonigho Bubu - Trends In Dementia Prevalence And Cognitive Aging Across Latin America; Jorge Llibre-Guerra - Rethinking Dementia Risk In India With Cumulative Disadvantage Life Course Structural Social Determinants Of Health Framework; Preeti Zanwar - Socioeconomic status modifies the association between Alzheimer's disease pathology and cognitive impairment; Regina Paradela - Social determinants of health and risk of dementia; Sebastian Walsh
Monday, July 13 4:15-5:45 p.m GeorgeV 3/4	Designing for Inclusion: Proven Strategies to Engage Historically Excluded Communities in ADRD Research Session Chairs: Carl Hill and Roland Thorpe Jr. Rainbows Of Aging Research Readiness: Promoting Participation Of Sexual And Gender

	Minorities In ADRD Clinical Trials; Jace Flatt - From Listening Sessions To Action: Evidence-based Engagement With Black / African American And Hispanic / Latino Communities; Luis Medina - Accessibility, Partnership, And Trustworthiness: Inclusive Science Initiatives With Black And Indigenous Communities In Wisconsin; Megan Zuelsdorff - The Care Registry: Amplifying Asian Americans', Native Hawaiians', And Pacific Islanders' Voices Through Research Participation; Van Park
Tuesday, July 14 9-10:30 a.m. S11	Family and Social Impact of Dementia: Caregiving, Work, and Policy Session Chairs: Julie Zissimopoulos and Maria Carrillo - Changes In Health-related Quality Of Life Among Informal Caregivers Of Persons Living With Dementia; Heun-Johnson Hanke - Elevating Caregivers' Voices: The Lived Impacts On Caregivers Along The Dementia Journey; Lycia Tramuja Vasconcellos Neumann - The Long-term Impact Of Dementia Caregiving On Labor Force Participation And Earnings Of Middle-aged Adults By Gender; Manying Cui - Policy in a Pandemic: The Paycheck Protection Program and Dementia Outcomes in Nursing Homes; Norma Coe - Estimating Productivity Losses Among Dementia Caregiving Networks; Patricia Synnott
Tuesday, July 14 9-10:30 a.m. N11A	Anti-amyloid therapy: Real world experience Session Chairs: Dror Shir and Michael Rafii - Cardiovascular Disease Is A Common, Modifiable Exclusion For Anti-Amyloid Therapy In Real-world Health Record And Research Cohorts; Amalia Peterson - Eligibility For Anti-amyloid Therapies In Biomarker-confirmed Atypical Alzheimer's Disease Phenotypes; Dror Shir - Real World Data From Anti-amyloid Treatment In The Indiana University Brain Health Program; Jared Brosch - Lecanemab In Clinical Practice: A Surveillance Safety Study From The Alzheimers Network For Treatment And Diagnostics (ALZ-NET) Registry; Marwan Sabbagh - ALZ-NET Demonstrates Real World Cognition And Safety Outcomes For Participants Receiving Beta Amyloid Targeting Monoclonal Antibodies; Michael Rafii - Comparative Effectiveness Of Lecanemab And Donanemab In Early Alzheimer's Disease: Real-world Evidence Versus Clinical Trials; Yuki Kujuro
Tuesday, July 14 9-10:30 a.m. GeorgeV 1/2	Brain Health In Action: Organization-Led Efforts Across the Globe Session Chairs: Chelsea Kline and Lenny Shallcross - From Evidence To Action: Implementing Brain Health And Risk Reduction Strategies In Low- And Middle-income Countries; Lucia Crivelli - Building Brain Health Across Communities: The Alzheimer's Association Approach; Matthew Baumgart - From Prototype To Platform: Scaling A Brain Health Clinic; Ross Dunne - The Population-level Approaches To Dementia Risk Reduction (PLADRR) Research Group; Sebastian Walsh

	Brain Health "Down Under": Opportunities And Challenges; Tanya Buchanan
Tuesday, July 14 9-10:30 a.m. Victoria 5/6	Adding V to ATN. Challenges and Opportunities Session Chairs: Atticus Hainsworth and Donna Wilcock - New kids on the block. Vascular insights from multi-omic studies; Alexi Nott - Emerging fluid biomarkers to assess VCID; Donna Wilcock - The emerging landscape of VCID clinical trials. Is the future bright?; Eric Smith - Next Generation Imaging Biomarkers For VCID: Capturing The Invisible; Prashanthi Vemuri
Tuesday, July 14 9-10:30 a.m. ICC Auditorium	Interpretation and clinical applicability of blood biomarkers of Alzheimer's disease across contexts, settings, and health care systems Session Chairs: Alessandro Padovani and Sebastian Palmqvist - Plasma biomarkers real-life use in memory clinic across clinical scenarios and settings; Andrea Pilotto - Blood Biomarkers Of Alzheimer's Disease For Long-term Dementia Risk And Prediction In The General Population; Giulia Grande - Plasma Biomarkers For Preclinical Alzheimer's Disease: Population Context, Cognition, And Sex-specific Effects; Marc Suárez-Calvet - Use of Alzheimer's disease blood-based biomarkers in a large United States health system; Michelle Mielke - Effects of Alzheimer's disease blood-based biomarkers on diagnosis and clinical management in secondary and primary care; Sebastian Palmqvist
Tuesday, July 14 9-10:30 a.m. Victoria 2/3	What's Possible at Mealtimes: Restoring Person-Centered Eating and Swallowing Care in Dementia Session Chairs: Nicole Rogus-Pulia and Raele Loy - Malnutrition and dehydration in persons living with dementia? How can we prevent and promote nutrition in persons living with dementia across care sectors?; Heather Keller - Prolonging Pleasure: Eating and Nutritional Approaches to Sustain Meaning and Enjoyment; Jane Murphy - Resource Considerations For Foregrounding Person-centered Eating And Nutritional Care; Raele Loy - From the Clinic to the Kitchen: What Families Need for Eating Care at Home; Stephanie Houston
Tuesday, July 14 2-3:30 p.m. ICC Auditorium	Developing Topics in Phase 2 Clinical Trials - The Life's End Benefits of Cannabidiol and Tetrahydrocannabinol (LIBBY) Study; Jacobo Mintzer and Brigid Reynolds - Topline Results from CELIA: A Phase 2 Study to Evaluate the Tau-Targeting ASO Diranersen (BIIB080) in Patients with Early Alzheimer's Disease; Catherine Mummery - Polaris-AD: AR1001 Additional Phase 2 Data And Phase 3 Trial Update With Topline Results Expected Later This Year; Niels Prins - Tau PET Results From The Phase 2b Autonomy Trial Evaluating Posdinemab In Early Alzheimer's Disease; Ziad Saad

Tuesday, July 14 2-3:30 p.m. Victoria 2/3	Insights into Healthy Aging from Longitudinal Cohorts Session Chairs: David Cash and Sylvia Villeneuve • Underrepresented populations, lessons on aging and biomarkers; Agustin Ibanez • Aging, Cardiovascular Health, and Dementia Risk, Lessons from the Rotterdam study; Julia Neitzel • UK Biobank: What are we learning about neuroimaging, aging, and dementia; Ludovica Griffanti • Unique Challenges and Opportunities of Biomarkers in Global Research (or LMIC Settings): An Introduction to World-Wide FINGERS; Miia Kivipelto
Tuesday, July 14 2-3:30 p.m. Victoria 5/6	Strategies to prevent dementia in the general population Session Chairs: Claire Burley and Shanquan Chen • Mediterranean Diet Meets Kenyan Plates: A Community-led Adaptation Of A Brain-healthy Diet In Africa-Fingers, Kenya; Ashley Njoroge • The Potential For Prevention Of Dementia In Denmark: A Nationwide Cohort Study; Janet Janbek • The Population-level Impact Of Shingles Vaccination On Dementia-related And All-cause Mortality In England; Pascal Geldsetzer • Hearing Aid Effectiveness And Probable Dementia Risk Across 33 Countries: A Pooled Analysis Of Seven Cohorts; Shanquan Chen • Physical Activity And Cognitive State Transitions: A 16-year Longitudinal Study; Suhang Song • Understanding Different Retirement Pathways And Divergent Cognitive Outcomes: Evidence From English Longitudinal Study Of Ageing; Wei Yang
Tuesday, July 14 4:15-5:45 p.m N11B	Lecanemab Three Years Post-Approval: A Comprehensive Multicenter, Real-World, Retrospective Study (LEADER) in Diverse US Clinical Settings Session Chairs: Catherine Mummery and Sharon Cohen • A Three-Year Update of Lecanemab Use in Early Alzheimer's Disease: A Comprehensive Multicenter, Real-World, Retrospective Study (LEADER); Babak Tousi • Physician and Perceived Patient Satisfaction with Lecanemab Maintenance Therapy: An Update from the LEADER study; Christian Camargo • The First Reported Findings of At-Home Subcutaneous Lecanemab Administration: A Real-World, Multicenter, Retrospective Study; Gregory Cooper • Real-World Use of Lecanemab Once-Monthly Maintenance Dosing in Early Alzheimer's Disease: A Multicenter, Retrospective US Study; Martin Sadowski • Lecanemab Use and Clinical Outcomes by APOE e4 Status, Concomitant Medications, Sex, Race, and Ethnicity: Findings from the LEADER Study; Marwan Sabbagh • Real-World Insights on Lecanemab Maintenance Therapy Patient Pathway From A Multicenter, Real-World, Retrospective Study (LEADER); Michael Rosenbloom
Tuesday, July 14 4:15-5:45 p.m Victoria 2/3	Improving Brain Health and Dementia Care through Art And Technology Session Chairs: Deanna Willis and Frank Lai • Personalized Cognitive Stimulation via Generative AI for Older Adults with Subjective Cognitive Decline: An fNIRS Study; Ao Zhu • Virtual Reality Improves The Effectiveness Of Digital Psychoeducation By Modulating Emotion

	Regulation In Dementia Caregivers; Cristina Festari • Leveraging A Passive Digital Marker And Secure Text Messaging To Engage Primary Care Patients At Risk For Dementia; Deanna Willis • Empathy Through Animation: Supporting Moral Development In Children Of Dementia-affected Families; Frank Lai • Unraveled: Integrating Theater And A Brain Health Festival To Increase Awareness, Engagement, And Support In Frontotemporal Dementia; Jake Broder • Automated Extraction Of Subjective Cognitive Decline From Clinical Notes In Atrial Fibrillation Patients Using Large Language Models; Meghan Turchioe
Wednesday, July 15 8-8:45 a.m. ICC Auditorium	Developing Topics in Phase 1 and Phase 2 Clinical Trials • The Life's end Benefits of cannaBidiol and tetrahydrocannabinol Open-Label Extension Study: Topline Results; Brigid Reynolds • Rewriting the Cholinergic Paradigm: NSC001 as a First-in-Class, Selective M1 Agonist with Transformative Potential in Alzheimer's Disease (AD); Manfred Windisch • From Bench To Bedside: Safety And Biomarker Effects Of Anti-PD-L1 IBC-Ab002 Immunotherapy In Early Alzheimer's Patients; Michal Schwartz • Amyloid-related Imaging Abnormalities In A Phase 1 Study Of Mivelsiran In Patients With Early-onset Alzheimer's Disease; Sharon Cohen
Wednesday, July 15 8-8:45 a.m. N11A	Dementia diagnosis and interventions at the primary care level and among underrepresented populations Session Chair: Gilberto Acosta • Dementia Research Priorities In Latin America: Perspectives Of Researchers, Caregivers, Policymakers, And People With Dementia; Isaac Acosta • Beyond Diagnosis: Primary Care Use, Patterns And Quality Of Care In The First Year Of Dementia In Australia; Joanne Tropea • Dementia Knowledge And Attitudes In Makueni County, Kenya: Regional Gaps And The Need For Comprehensive Education; Nicolas Farina • Culturally And Linguistically Relevant ACP Intervention Design Among Latino Families Facing Dementia: Community-engaged Approach; Sara Bybee • Targeted Dementia Screening Of High-risk Patients In Primary Care: Results From The Eradar Pragmatic Randomized Trials; Sascha Dublin • Challenges in delivering START by community Health Workers in primary care in Brazil; Lucas Teixeira
Wednesday, July 15 9-10:30 a.m. N11B	Navigating Anti-Amyloid Therapy in Alzheimer's Disease: Monitoring, Management, and Maintenance Session Chairs: Jonathan Graff-Radford and Yen Ying Lim • Monitoring Cognitive Status during and after treatment; Elizabeth Boots • Monitoring Biomarker Response during and after treatment; Lawren VandeVrede • ARIA risk reduction and management; Seong Hye Choi • Stopping and Maintenance Therapy Decisions; Sharon Sha
Wednesday, July 15 9-10:30 a.m.	Bilingualism and Linguistic Diversity in Dementia Symptom Characterization Session Chairs: Arpita Bose and Wenfu Bao

Victoria 2/3	• Language Production in Aging and Early Cognitive Decline: Connected Speech Profiles of Monolingual and Bilingual Speakers across a linguistically diverse Indian context; Aparna Venugopal • Importance of language-specific diagnostic markers in understudied languages in AD and PPA; Arpita Bose • Cognitive and brain reserve in bilingual speakers with clinical AD variants; Jessica de Leon • Multilingualism And Risk Of Prevalent MCI And Dementia In India; Miguel Arce Rentería • Bilingualism's association with age of symptom onset in Spanish-Catalan bilinguals with ADRD; Miguel Ángel Santos Santos • Impact Of Bilingualism On Neuropsychological And Fluid Biomarker Profiles In A Spanish-Catalan Bilingual Cohort With Alzheimer's Disease; Wenfu Bao
Wednesday, July 15 2-3:30 p.m. ICC Auditorium	Considerations for the Progression of Alzheimer's Disease from Cognitively Unimpaired to Cognitive Impairment: Weighing these Risks Session Chairs: Clifford Jack and Reisa Sperling • Lifetime And 10-year Absolute Risk Of Cognitive Impairment In Relation To Amyloid Pet Severity; Clifford Jack • The Prognostic Value Of P-tau217 Levels On Progression To Clinical Impairment Over 2, 5, And 10 Years; Rachel Buckley • Estimation Of 5- And 10-year Absolute Risk Of Cognitive Impairment Based On Plasma P-tau217; Alicia Algeciras-Schimmich • Evaluation Of Perceived, Actual, And Observed Discrimination Due To Biomarker Information - A Scoping Review; Jalayne Arias • Alzheimer Risk Stratification Using Plasma BD P-tau217: Eight Years Of Follow-up In The British 1946 Cohort; Jonathan Schott
Wednesday, July 15 2-3:30 p.m. GeorgeV 3/4	The Use Of Biomarkers In Clinical Practice Session Chairs: Mary Ellen Koran and Sharon Sha • Imaging Biomarkers in Dementia with Lewy Bodies; Daniel Ferreira • Implementing Biomarkers in Private Practice; Greg Cooper • Bringing Blood Biomarkers into Routine Alzheimer's Diagnosis (Lessons from the ADAPT Trial); Jemma Hazan • Multimodal PET Imaging in Dementia Evaluation; Mary Ellen Koran • Fluid Biomarkers in Clinical Practice: A Case-Based Approach; Sharon Sha • Blood Biomarkers in Community Cohorts; Tharick Pascoal
Wednesday, July 15 2-3:30 p.m. GeorgeV 1/2	Beyond the diagnosis: Multidisciplinary management of Lewy Body Dementia across the disease continuum Session Chairs: Bhavana Patel and Nicole Herndon • Avoiding Common Pitfalls in Hospitalized Patients With Lewy Body Dementia; Bhavana Patel • Multidisciplinary Care Perspectives: Neuropalliative Care In Lewy Body Dementia; Katarina Rukavina • Practical approaches to symptomatic treatment in Lewy Body Dementia: A case based review; Jonathan Knight

	• Multidisciplinary care perspectives: Occupational therapy in Lewy body dementia; Julia Wood • Early Detection And Cognitive Care In Dementia With Lewy Bodies: Practical Approaches For Clinicians; Kathryn Wyman-Chick • Multidisciplinary care perspectives: Speech-language therapy in Lewy body dementia; Nicole Herndon
Wednesday, July 15 4:15-5:45 p.m Victoria 1/4	Sleep and neurodegeneration Session Chairs: Brittany Larsen and Diego Carvalho • Sleep Phase-amplitude Coupling Predicts Cognitive And Neuropsychiatric Resilience In Alzheimer's Disease; Arsenio Páez • The Links Between Sleep Stage Durations And Episodic Memory Vary By Levels Of Insulin Resistance In Older Adults; Brittany Larsen • Multidimensional Sleep Health And Neuroimaging Signatures Of Cerebral Small Vessel Disease In Late Life; Kelsie Full • Disentangling Hypoxic Burden And Sleep Fragmentation In Relation To Executive Function In Older Adults With Chronic Metabolic Conditions; Nwanyieze Jiakponnah • Feasibility Of In-home Sleep Eeg And Sleep Eeg Parameters In Older Adults Age 90+; Zarui Melikyan

AAIC for All: Community

Hear directly from global experts about the latest discoveries and what they mean for those affected by the disease. This session translates key findings from AAIC into accessible updates on topics such as early detection, treatments, risk reduction, and caregiving support. Sessions are in Hall S9.

Date and Time	Session
Thursday, July 16 10:00-11:30 a.m.	AAIC 2026 Highlights Session Chairs: Courtney Kloske and Love Onwurzuruike • A Lived Experience Perspective: Importance of Research • Setting the Scene: Prevalence of Alzheimer's and other Dementia in the UK and Globally; Charles Marshall • Breakthroughs in Early Detection and Diagnosis; Sebastian Palmqvist • Recent Advancements in Treatment Approaches; Gil Rabinovici • Insights into Risk Reduction and Lifestyle Modification Strategies; Lucia Crivelli • Empowering Care Partners and Care Givers around the Globe: Elizabeth Edgerly, Katherine Gray, and Sebastian Crutch
Thursday, July 16 11:45-12:45 p.m.	AAIC 2026 In The Neighborhood Session Chairs: Courtney Kloske and Festus Slade • How the Immune System Breaks Down Brain Connections in Disease; Soyon Hong • Brain Inflammation In Frontotemporal Dementia: how is it measured and why is it important?; Maura Malpetti • Impact Of Plasma P-tau217 Testing On Diagnosis In A Real-world Nhs Memory Clinic Population; Natalia Chemas

	• Regional Variation In The Potential For Dementia Prevention Across England; Conor Durkin • Menopause, Lifestyle & Dementia: A UK Biobank Study; Robin Andrews • Childhood Predictors Of Dementia: 78 Year Follow Up Of The 1946 British Birth Cohort; Josh King-Robson • Exploring the relationship between air pollution and dementia; Katherine Taylor
Thursday, July 16 1:00-1:30 p.m.	AAIC 2026 Community Keynote Presentation • Future of Dementia Research; Jonathan Schott
