

## Jumpstarter

### Comorbidity in Alzheimer's disease

---

Access free, full-text, current journal articles to jump-start your research or learn more about comorbid (co-existing) physical and psychiatric conditions and Alzheimer's disease.

Cormorbid dementia and cancer in residents of nursing homes: secondary analyses of a cross-sectional study.

Blytt, KM; Selbaek, G; Drageset, J; et al.

<https://www.ncbi.nlm.nih.gov/pubmed/28146014>

Comorbidity and dementia: a scoping review of the literature

Bunn, F; Burn, AM; Goodman, C; et al.

Scopes the extent, range, and nature of research activity related to dementia and comorbidity.

<http://www.ncbi.nlm.nih.gov/pubmed/25358236>

Comorbidity and dementia: improving health care for people with dementia (CoDem)

Bunn, F.

Slide presentation of the impact of comorbidities for people with dementia on access to non-dementia services and ways of integrating services for stroke, diabetes, and visual impairment

<http://slideplayer.com/slide/2931542>

Comorbidity and progression of late onset Alzheimer's disease: a systematic review.

Mirian, L; Haaksma, LR; Vilela, AM; et al.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5417646/pdf/pone.0177044.pdf>

Commodity in dementia: update of an ongoing autopsy study

Magaki, S; Yong, WH; Khanlou, N; et al.

Examines systemic and central nervous system comorbidities of individuals with dementia evaluated during general autopsy.

<http://www.ncbi.nlm.nih.gov/pubmed/25039832>

Commodity of dementia: a cross-sectional study of primary care older patients

Poblador-Plou, B; Calderon-Larranaga, A; Marta-Moreno, J; et al

Analyzes the comorbidities associated with dementia in older patients and reviews the existing similarities and differences between them.

<http://www.ncbi.nlm.nih.gov/pubmed/24645776>

Dementia and serious coexisting medical conditions: a double whammy

Maslow, K, 2004

presents the prevalence of serious coexisting conditions and costs of services; implications for clinical care and the information and support needs of families with dementia.

[https://www.alz.org/national/documents/Coexisting\\_Conditions\\_article.pdf](https://www.alz.org/national/documents/Coexisting_Conditions_article.pdf)

Frailty as a predictor of cognitive disorders: a systematic review and meta-analysis.

Borges, MK; Canevelli, M; Cesari, M; et al.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6389599>

Managing physical co-morbidities in dementia.

Harwood, R.

A slide presentation that summarizes the physical presenting problems and psychiatric conditions that can occur with dementia and their management

<https://www.nottingham.ac.uk/mcop/documents/physical-comorbidity-in-dementia.pdf>

Non-psychiatric comorbidity associated with Alzheimer's disease.

Duthie, A; Chew, D; Soiza, RL.

<https://academic.oup.com/qjmed/article/104/11/913/1563428>

Quality of dementia clinical guidelines and relevance to the care of older people with comorbidity: evidence from the literature

Damiani, G; Silvestrini, G; Trozzi, L; et al.

<http://www.ncbi.nlm.nih.gov/pubmed/25170263>

Retrospective assessment of patient characteristics and healthcare costs prior to a diagnosis of Alzheimer's disease in an administrative claims database.

Nair, R; Haynes, VS; Siadat, M; et al.

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6192320>
