FINAL CHANCE: Help inform the next Healthy Brain Initiative Road Map

Deadline Extended to Friday, August 19th — Seeking Feedback On Next Healthy Brain Initiative Road Map

We are calling all public health professionals! Help shape the public health response to Alzheimer’s and other dementias by providing input on the Healthy Brain Initiative (HBI) Road Map for State and Local Public Health.

The Centers for Disease Control and Prevention (CDC) and the Alzheimer’s Association have begun the process of developing the fourth edition in the Road Map series, which serves as a guide for state and local public health practitioners to promote brain health, improve diagnosis and care for people living with cognitive impairment, and better support caregivers. State and local public health agencies, and other interested organizations and individuals, are invited to provide input on the Road Map’s proposed content. This input will help ensure the relevance and usefulness of the Road Map — and will help shape the new Road Map’s action items.
