

## **ALZHEIMER'S IMAGING CONSORTIUM (AIC)**

Saturday, July 15, 2023 | 8 a.m. – 5 p.m.  
RAI Convention Center (Hall 2) — Amsterdam, Netherlands  
All times are in Central European Time  
In-person attendance only

### **Overview**

The Alzheimer's Imaging Consortium (AIC), a preconference to AAIC, will focus on the frontiers of neuroimaging of Alzheimer's and other dementia. The program will focus on new tools and methods, how neuroimaging can drive new discoveries in the disease, as well as clinical applications and implications. The program consists of invited speakers, oral and poster presentations from submitted abstracts, a debate, and a panel discussion. There will be a large emphasis on interactive Q&A sessions and opportunities for early-career researchers throughout the scientific program. A reception will follow for registered attendees.

### **Organizing Committee**

- Laura Wisse, Lund University, Sweden
- David Cash, University College London, United Kingdom
- Tobey Betthausen, University of Wisconsin, Madison, United States
- Alexa Pichet Binette, Lund University, Sweden
- Michael Ewers, Ludwig-Maximilian-University (LMU) München, Germany
- Colin Groot, Amsterdam University Medical Center, Netherlands
- Gemma Salvado, Lund University, Sweden
- Tavia Evans, Erasmus University, Netherlands
- Renaud La Joie, University of California, San Francisco, United States

### **Target Audience**

All clinicians involved in the care or research of individuals with memory or other cognitive complaints (including but not limited to neurologists, psychiatrists, radiologists, geriatricians, neuropsychologists, physicians and nurses); researchers, industry and regulatory agency stakeholders; and others involved in the use of imaging techniques in the study of Alzheimer's disease, related disorders and normal aging.

## Registration

Preconferences are offered for in-person attendance only. Preconferences require a separate registration fee in addition to AAIC full conference registration, or they may be purchased as stand-alone events.
