

Add to your  GOOGLE CALENDAR or  APPLE/OUTLOOK CALENDAR

AAIC® Neuroscience Next is a no-cost virtual meeting for the next generation neuroscience researchers. Help us accelerate the future of the field.

Beginning April 17, explore posters from across the world and leave comments for authors around the clock on the virtual platform. Poster topics include molecular and cell biology, development of new models and analysis methods, genetics, human neuropathology, drug development, markers and manifestations, and general neuroscience.

Sessions are listed in Central Standard Time (North America). Schedule is current at the time of posting. Content is listed as submitted.

MONDAY, APRIL 17

10-10:45 a.m.

Welcome and Plenary

Opening address by Maria Carrillo, Jose Abisambra and Nadia Dehghani followed by a plenary presentation on "What can we learn from Centenarians", by Henne Holstege.

10:45-11:30 a.m.

Awards

Presentation of the AAIC Neuroscience Next 'One to Watch' Award and the Alzheimer's Association® Excellence in Neuroscience Mentoring Award.
Broadcast live from Madison, Wisconsin, USA.

TUESDAY, APRIL 18

10-10:45 a.m.

Research Retrospective

Virginia Lee discusses the key scientific advances of her work and shares stories from her career with Isabel Castanho.
Broadcast live from Philadelphia, Pennsylvania, USA.

10:45-11:30 a.m.

Results: Journal Club

Christian Limberger leads a discussion of a breaking article on astrocytic dysfunction in Alzheimer's disease with Alberto Serrano Pozo, Zhaozhi Li and Sudeshna Das.
Broadcast live from Porto Alegre, Brazil.

WEDNESDAY, APRIL 19

10-10:45 a.m.

Research Perspectives

A range of perspectives on Traumatic Brain Injury, featuring researcher and former NFL player Robert W. Turner II, neuropsychologist Michael Alosco, researchers Emma Russell and Kamar Ameen-Ali, and program director Nsini Umoh.

10:45-11:30 a.m.

Methods: Live from the Lab

Cutting-edge demonstrations and tours of the laboratories of Claudia Suemoto, Rufus Akinoyemi and Stefan Prokop.
With Obong Enobong and Mahmoud Maina

THURSDAY, APRIL 20

10-10:45 a.m.

Research Reunion

Christian Hass, Dennis Selkoe, David Teplow and others are reunited to reflect upon the inception of their landmark 1992 "Nature" paper on amyloid biology, its enduring impact and the career paths they have subsequently carved.
With Peter Kunach and Doris Molina-Henry

10:45-11:30 a.m.

Concepts: Debate — The Future of Diagnosis

Yolanda Ohene, Chi Udeh-Momoh and Erin Smith debate whether the future of diagnosis lies with neuroimaging, blood-based markers or digital markers.
With Henrik Zetterberg and Maura Malpetti
Broadcast live from London, U.K.

Certificates of attendance can be found in "Resources" on the virtual platform.

SAVE ON AN ISTAART MEMBERSHIP

Join the Alzheimer's Association International Society to Advance Alzheimer's Research and Treatment (ISTAART) during AAIC Neuroscience Next to save on your membership and access the virtual platform for an additional 30 days. ISTAART members also receive exclusive member benefits, including no-cost online attendance and significant discounts for in-person attendance for the Alzheimer's Association International Conference®, July 16-20, 2023, in Amsterdam, Netherlands, and online.

Join now at alz.org/ISTAART and use code **ISTAARTNN23** at checkout*.

*Offer valid through April 21, 2023.

*Membership valid through June 30, 2024; new members only.

THANK YOU TO OUR SPONSOR

Thank you to our sponsor who helped make AAIC Neuroscience Next possible.
