Holy Cross Health joins Walk to End Alzheimer’s Broward as a supporting sponsor

Walk to End Alzheimer’s is the world’s largest event dedicated to Alzheimer’s care, support, and research.

BROWARD, Fla., August 17, 2023 – Holy Cross Health will join the Alzheimer’s Association Southeast Florida Chapter as the 2023 Walk to End Alzheimer’s supporting sponsor in Broward County. The Walk will take place on Saturday, November 18 at Nova Southeastern University.

“Holy Cross Health is honored to support the Walk to End Alzheimer’s,” said Mark Doyle, president and CEO.

More than 6 million Americans are living with Alzheimer’s disease – a leading cause of death in the United States. Additionally, more than 11 million family members and friends provide care to people living with Alzheimer’s and other dementias.

On Walk day, attendees honor those affected by Alzheimer’s with the poignant Promise Garden ceremony – a mission-focused experience that signifies participants’ solidarity in the fight against the disease. The colors of the Promise Garden flowers represent participants’ personal connections to Alzheimer’s disease and the reasons they walk.

“In particular, the Phil Smith Neuroscience Institute at Holy Cross Health proudly partners with the Alzheimer’s Association to offer the care, support, and research needed to overcome this life-altering condition. We continue to forge toward eradicating Alzheimer's disease.”

Alzheimer’s Association Walk to End Alzheimer’s®
The Alzheimer’s Association Walk to End Alzheimer’s is the world’s largest event to raise awareness and funds for Alzheimer’s care, support and research. Since 1989, the Alzheimer’s
Association mobilized millions of Americans in the Alzheimer’s Association Memory Walk®; now the Alzheimer’s Association is continuing to lead the way with Walk to End Alzheimer’s. Together, we can end Alzheimer’s.

**Alzheimer’s Association®**
The Alzheimer’s Association is a worldwide voluntary health organization dedicated to Alzheimer’s care, support and research. Its mission is to lead the way to end Alzheimer's and all other dementia – by accelerating global research, driving risk reduction and early detection, and maximizing quality care and support.
