Reference Methods Workgroup Agenda

Friday, March 16, 2012

Co-Chairs: Henrik Zetterberg & Kaj Blennow

Facilitator: Maria Carrillo, Alzheimer's Association

I. Roll Call – Maria Carrillo

II. Review of Action Items below:

- a. Update from Les on update of this conversation on diluents.
- b. We will have an update on the IRMM effort and publication by Henrik.
- c. Omar and others will draft gold standard wish list for reference method mass spect criteria for one method. Volunteers are Omar, Adam, Erin and Rand for this discussion offline. Validation reports would be helpful if available from labs if they can for this discussion. Maria will work with Omar to reach out and ask four groups to see if they have these available.

III. Discussion of which issues to pursue to advance global reference methods
