Spring into the best communication techniques in Alzheimer's disease!

This is your opportunity to gain the most up-to-date tools and strategies to support quality care of persons with Alzheimer's disease and dementia types. Join us for a two day agenda to learn how to decode behavioral messages and identify methods to communicate and connect effectively. We will also hear from a diverse panel of caregivers offering powerful experiences and approaches. Don't miss the fireside chat with Illinois Lt. Governor Juliana Stratton as she shares her journey as a caregiver for her mother and the "LG Cares; Through Our Eyes" campaign.
