

# MEMORY WITH MOVEMENT: PHYSICAL THERAPY APPROACH TO ALZHEIMER'S DISEASE

An education program presented by the Alzheimer's Association® and Concorde Career College

**PHYSICAL THERAPY CAN PROVIDE A WEALTH OF BENEFITS FOR INDIVIDUALS WITH DEMENTIA...**

however, the Physical Therapist (PT) or the PT Assistant (PTA) must have the knowledge on how to communicate with, and relate to, the person with the disease.

This workshop is designed to help prepare healthcare professionals to deliver appropriate therapeutic interventions to individuals living with Alzheimer's and other dementia, their family members and care partners. Join us to learn about diagnosis, treatment, interdisciplinary care planning and rehabilitation strategies in the management of patients living with Alzheimer's and other dementia.
