

# Helpful Tech & Tools for Dementia Support

*A virtual community presentation*

**Wednesday, June 12, 2024 | 11 a.m. - 1 p.m. CST**

Get connected! Join us for a no-cost virtual presentation to learn how caregivers and those impacted with dementia can use technology to increase confidence, safety, and independence and make life easier.

Presenters from North Dakota Assistive and Lighthouse Center for Vital Living of Duluth will demonstrate several helpful devices for solving common Alzheimer's and dementia care challenges. They will also share success stories, practical tips, and resources and answer your technology and device questions.

**Register Online**
