

IMPORTANT: The health and safety of our volunteers, staff and all of our constituents remain our drivers as we address the COVID-19 outbreak while pursuing our mission, today and in the longer term. In line with that concern, our local New Mexico Chapter is temporarily transforming into a remote - or "virtual access-only" site.

This means that until further notice, Alzheimer's Association services will continue to be available via phone, email and other virtual means under development. However, our actual staff members will not be available to meet in-person – including all scheduled presentations, trainings and classes. This decision is intended to ensure the safety of our constituents, volunteers and staff.

Again, due to precautionary health measures, our physical office will be closed beginning Friday, March 13 until further notice. Our staff is working remotely and available via telephone or email.

Stay tuned to our Facebook site for the latest updates.

Much appreciated,

The Staff of the Alzheimer's Association, NM Chapter
