According to the South Carolina Alzheimer’s Disease Registry:

- 364 individuals in Saluda County were living with Alzheimer’s Disease or Related Dementias (ADRD).
- Statewide, 111,818 South Carolinians were living with ADRD.
- Saluda County has seen a 113% increase in documented cases since 2000.*

*This fact sheet reflects data from 2017, the most current year that complete data is available.

**County Map: Cases by Zip Code**¹

**Cases by Race**

African Americans were 133% more likely to have ADRD than their non-Hispanic white counterparts within the county.

**Cases by Age**

While most individuals with ADRD were 65 or older, 11% of county cases were under the age of 65.

**Place of Residence**

At time of diagnosis, most individuals lived in a community setting† rather than a skilled nursing facility.

†Values above reflect cases in an entire ZIP Code. Since some ZIP Codes cross county boundaries, only a portion of cases from shared ZIP Codes are included in the total cases for the county.

†Community Settings may include Assisted Living environments.

‡Includes Asian, American Indian, Hispanic, and Unknown.
