KIT TITLE LIST

The Alzheimer’s Project: Screening Kit (2009)

This kit contains the same DVD’s as listed in the DVD section of this list plus a discussion guide for use with groups.

At the Crossroads: The Support Group Kit on Alzheimer’s Disease, Dementia and Driving (2011)

This title can be used as a guide for support group leaders to help family Members decide when and how a person with dementia should limit or stop driving. Many reproducible forms and information sheets are included for use by support group leaders. (This title does not include a video.)

Behavior Intervention Process: A Program of Printed Materials, Resources and Video.
University of Wisconsin-Milwaukee and Unicare Health.

A training program designed for those who face problem behaviors in patients in a care setting. Behavior intervention methods are stressed. The 18 minute video shows a simplified resident case study which illustrates how behavior intervention can be used.

Choice and Challenge: Caring for Aggressive Older Adults Across Levels of Care. (1998)

This video, which shows clips of incidents involving aggression among Alzheimer’s residents in nursing homes, serves as a guide to assessing and managing hostile behavior. Supportive printed materials for use in training are included. 23 min.

Clinician Toolbox: Tools for the Screening, Diagnosis and Assessment of Alzheimer’s Disease.
Eisai, Inc. and Pfizer, Inc., 1998

This kit, produced in cooperation with the National Council on Aging and the Alzheimer’s Association, includes the following booklets: “Clinician Guide,” “Differential Diagnosis of Alzheimer’s Disease Algorithm,” “Clock Drawing Task,” “Mini-Mental State Examination,” “Physical Self-Maintenance Scale” and “Functional Activities Questionnaire.”

Conversation Cards for Adults: An Interactive Activity for Reminiscing and Storytelling (2014)

The “Familiar Words” deck contains 52 6”x9” sturdy cards featuring a vivid photo with the name of the object in large print on the front and conversation starter questions on the reverse. Questions are designed to help people reminisce about their lives.
Family, “Let’s Talk”: Starting Conversations across Generations

This game was created to start conversations across generations according to the publisher. A combination of serious and fun questions is included.

Front Row Seat: Songs of the Holiday Season DVD, CD and printable songbook (2001)

This is a sing-along program for caregivers, activity directors and anyone wishing to bring music into the lives of others. Included are a DVD of 16 holiday favorites and a CD with a printable songbook with large-print lyrics.

Mental Fitness Cards: 100 Exercises for a Healthy Brain (2007)

This is a set of 100 large, sturdy cards which can be used by any adult who wishes to keep their brain active. Each card includes one or more suggestions for mental exercises, new ways to approach activities and simple games to increase brain power.

Moments: Avenues to Discussion and Cognitive Stimulation (1990)

Six volumes of photographs of various activities with discussion-starter descriptions that could be used to bring back memories of the past to older adults. Additional questions and discussion topics are appended. Each volume deals with a particular subject area such as “Childhood” and “Motherhood.”

S.A.F.E. Response Techniques in Crisis Situations (2001)

This video teaches a 4-step process for safely and effectively handling physically combative behavior on the part of older adults in long-term care settings. The video is accompanied by a 25 page manual. 25 min.

Sharpen Your Senses Cards: Sensory Activities to Stimulate the Brain and Enhance Memory (2008)

This kit contains 120 cards divided into 6 categories, each dealing with a sense or multiple senses. Each card asks a question relative to a particular sense such as, “What are some common sights of spring?” Cards can be used one on one or with groups as conversation starters or as ways to enhance mental fitness.

Thinking Cards: Stimulating Activities for Older Adults with Mild Cognitive Impairment (2004)

One hundred cards with one hundred activities to stimulate the person with mild cognitive impairment. A color photo appears on one side of each card to stimulate discussion. Simple questions or activities appear on the reverse of each card. These could be used in group settings or on an individual basis at home.

Carol Hand, MSSW, New Ventures of Wisconsin, Inc.

A workshop series designed to be used with men who are caregivers to individuals over 60 years of age.
