

Giving Back to the Community

Masters Gallery Foods

Masters Gallery Foods (MGF), Plymouth, is a family company dedicated to mastering the cheese business and enhancing the lives of its employees, partners and communities. They have proven that mission year and year again with their generosity to the community in which they live. "We have found that everyone has their own passions, and we want to foster that as a company," said Tammy Graf, Community Relations, MGF. "We want to help our community, and support the causes that are important to our employees."

To foster this, the company created the *MGF Gives Back Program*. Each year, through employee voting, the company selects several non-profit organizations to partner with and support. In 2022, the Alzheimer's Association was selected as one of their charities of choice as a part of the program.

Through generous pledges and donations, a bake sale and 50/50 raffle, Masters Gallery Foods' employees donated more than \$14,000 to the Alzheimer's Association to support The Longest Day® fundraising initiative.

MGF also has a wellness program and has an employee team registered for the Walk to End Alzheimer's® in Sheboygan County.

Thank you for your commitment in the community in which you work!
