

Wisconsin Webinar/Phone Family Caregiver Education Programs – May

10 Warning Signs of Alzheimer's

Alzheimer's and other dementias cause memory, thinking and behavior problems that interfere with daily living. Join us to learn how to recognize common signs of the disease; how to approach someone about memory concerns; the importance of early detection and benefits of a diagnosis; possible tests and assessments for the diagnostic process, and Alzheimer's Association resources.

"Collage on Canvas" Art Project - Memories in the Making and SPARK - Social Engagement Program

Join us for laughter, reminiscing, learning, and connectedness! This is a hands-on virtual art program and discussion for individuals with Alzheimer's or another form of dementia and their family care partners. The program is for individuals living in Wisconsin. This is a collaborative program. Partners include MEMORIES IN THE MAKING® a signature art program of the Alzheimer's Association, Center for Visual Arts, Wausau WI (Donated all project art supplies and instructions), SPARK! Leigh Yawkey Woodson Art Museum, Wausau WI, and Connexus Cares.

Art supplies are provided and will be shipped to each participant prior to the session. One art kit per household.

Tuesday, May 18, 1:00-2:30 pm | [REGISTER](#)

Dementia Conversations

When someone is showing signs of dementia, it's time to talk. Often, conversations with family about changing behaviors can be challenging and uncomfortable. This program provides tips for breaking the ice with your family so you can address some of the most common issues that are difficult to discuss: going to the doctor for a diagnosis or medical treatment, deciding when to stop driving, and making legal and financial plans for future care.

Friday, May 21, 12:00-1:00 pm | [REGISTER](#)

Effective Communication Strategies

Communication is more than just talking and listening – it's also about sending and receiving messages through attitude, tone of voice, facial expressions and body language. As people with Alzheimer's disease and other dementias progress in their journey and the ability to use words is lost, families need new ways to connect. Join us to explore how communication takes place when someone has Alzheimer's, learn to decode the verbal and behavioral messages delivered by someone with dementia, and identify strategies to help you connect and communicate at each stage of the disease.

Healthy Living for Your Brain & Body

For centuries, we've known that the health of the brain and the body are connected. But now, science is able to provide insights into how to make lifestyle choices that may help you keep your brain and body healthy as you age. Join us to learn about research in the areas of diet and nutrition, exercise, cognitive activity and social engagement, and use hands-on tools to help you incorporate these recommendations into a plan for healthy aging.

Spanish - Healthy Living for Your Brain in Body

Durante siglos, hemos sabido que la salud del cerebro y del cuerpo están conectados. Pero ahora, la ciencia es capaz de proporcionar ideas sobre cómo el estilo de vida le puede ayudar a mantener el cerebro y el cuerpo saludable a medida que envejece. Únase a nosotros para aprender acerca de la investigación en las áreas de la dieta y la nutrición, el ejercicio, la actividad cognitiva y el compromiso social, y el uso de herramientas prácticas para ayudarlo a incorporar estas recomendaciones en un plan para un envejecimiento saludable.

Living with Alzheimer's for Caregivers – Late Stage

In the late stage of Alzheimer's disease, caregiving typically involves new ways of connecting and interacting with the person with the disease. In this 2-part series, you will have the opportunity to learn about the late stage of Alzheimer's disease and dementia, information about providing care, communicating, developing resources, working with your care team to provide an optimal end of life experience. Join us with guest speaker Marian Plummer, Care Transition Coordinator, St. Croix Hospice.

Two Consecutive Mondays, May 10 & 17, 3:00-4:30 pm | [REGISTER](#)

MEMORIES IN THE MAKING® - Celebrating Spring Gardens – Social Engagement Event

MEMORIES IN THE MAKING® is the signature art program of the Alzheimer's Association. This unique program, introduced in 1988, allows individuals with Alzheimer's disease and related dementias to express themselves through art and communicate or share the essence of who they are. Care partners and those living with early stage Alzheimer's or dementia join in an art session led by an instructor.

Art supplies are provided and will be shipped to each participant prior to the session.

Friday, May 7, 1:00-2:30 pm | [REGISTER](#)

Understanding & Responding to Dementia Related Behavior

Behavior is a powerful form of communication and is one of the primary ways for people with dementia to communicate their needs and feelings as the ability to use language is lost. However, some behaviors can present real challenges for caregivers to manage. Join us to learn to decode behavioral messages, identify common behavior triggers, and learn strategies to help intervene with some of the most common behavioral challenges of Alzheimer's disease.

Wednesday, May 26, 1:00-2:30 pm | [REGISTER](#)

Updates from the Latest Research in Dementia

Alzheimer's disease is not a normal part of aging. Dr. Kimberly Mueller will discuss the impact of Alzheimer's; the difference between Alzheimer's and dementia; stages and risk factors; current research and treatments available for some symptoms; and Alzheimer's Association resources. This presentation is being offered in conjunction with the Brown County Dementia Friendly Community Coalition.
