

To enhance the lives of individuals with Alzheimer's disease and other dementias.

Support groups are designed to provide emotional, educational and social support for caregivers through regularly scheduled meetings. They help participants develop methods and skills to solve problems. The groups encourage caregivers to maintain their own personal, physical and emotional health, as well as optimally care for the person with dementia. Please call 800.272.2900 or email [wvinfo@alz.org](mailto:wvinfo@alz.org) to receive login information for those groups meeting virtually.
