Empower your patients to take a more active role in their health care.

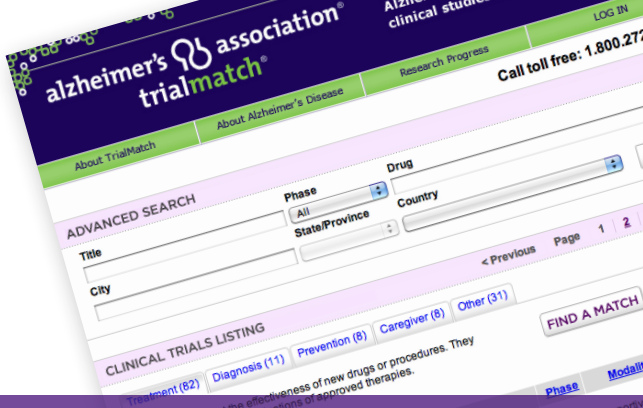

As a physician, your patients come to you seeking answers and the best care possible. And when it comes to making an Alzheimer's diagnosis, you may not be armed with as many treatment possibilities as you would like. But you can be. **Alzheimer's Association TrialMatch®** is a free, easy-to-use matching service that connects you, your patients and their caregivers with current clinical studies — some of which could provide access to cutting-edge treatments.

“When you get slapped with the news of an Alzheimer's diagnosis, there ought to be something there to encourage you. But with Alzheimer's, there hasn't been. Clinical trials are the key to opening that door.”

Ron Grant

*Living with Alzheimer's disease
TrialMatch user*

Alzheimer's Association TrialMatch® is funded solely by the Alzheimer's Association and includes all applicable studies without preference to any study sponsor. The service is free to all users and no recruitment fees or other compensation is collected for clinical trial enrollment.

Find clinical trials in your area.

- » Visit alz.org/trialmatch.
- » Select "I am a physician."
- » Click "view trials" — no registration required.

About Alzheimer's Association TrialMatch®

- » A continuously updated database of 130+ pharmacological and non-pharmacological Alzheimer's, mild cognitive impairment (MCI) and related dementia studies.
- » Matches patients, healthy volunteers and caregivers with ongoing clinical trials.
- » Matches are based on specific patient diagnosis, clinical history and location.
- » Available online at alz.org/trialmatch and by phone at **800.272.3900**.

The Alzheimer's Association is the world's leading voluntary health organization in Alzheimer's care, support and research. Our mission is to eliminate Alzheimer's disease through the advancement of research; to provide and enhance care and support for all affected; and to reduce the risk of dementia through the promotion of brain health.

Our vision is a world without Alzheimer's®.
